CUMMU JAFFER SULLIMAN & CO.

H. H. THE NIZAM'S STATE RAILWAY
ADVERTISING AT RAILWAY STATIONS.

THE PROPRIETOR of the *Bombay Gazette* Press, having leased from the NIZAM'S STATE RAILWAY Company the exclusive right of advertising at all the Railway Stations belonging to the Company, is prepared to contract with parties desirous of posting notices or advertisements on the lines.

The Cantonment of SECUNDRABAD, as is well known, contains the largest military garrison in India—a garrison comprising over 5,000 British and native troops. Contiguous to it is the Cantonment on BOLARUM, garrisoned by two regiments and one battery of the Hydrabad Contingent, all officered by Europeans. South of Secunderabad, about 4 miles are the suburbs of Hydrabad, containing the Nizam's regular troops, about 5,000 in number, officered mostly by Europeans—besides a large civil population. It would manifestly be advantageous to firms to advertise at the stations on the above railway, the most important of which are SECUNDRABAD, HYDRABAD, GANGAWARUM and TANDUR.

The announcements may be in English or in any of the NATIVE LANGUAGES.

INSURANCE COMPANIES, SHIPPING COMPANIES HOTELKEEPERS, MERCHANTS, TRADERS and others who wish to force their business on the notice of the public, all alike value the privilege of *Railway Station Advertising*.

There is no reason why the privilege should not be also specially valuable to Advertisers in India. Looking to the great and increasing number of Native Railway Passengers on the two trunk lines on Western India, Native Merchants, Traders, &c., erling that they have the privilege of advertising in their own language, would find the publication of their announcements at Railway Stations an infallible means of extending their business.

Advertisers can select the Stations at which they wish their Placards posted, and may advertise for any period that may be agreed on. The charges have been fixed on an extremely *moderate scale* to encourage Advertisers to make a liberal use of the new means now offered of making announcements known to the public.

Placards, according to the taste of Advertisers, may be printed at moderate charges in ENGLISH or any of the NATIVE LANGUAGES at the *Bombay Gazette* Press. Estimates on application.

RATES.

Board not exceeding 2 feet long and 2 feet broad Re. 1 per month. For every additional square foot annas 2.

Thus a firm exhibiting a board, say 4 square feet will have the advantage of having their business advertisement read by thousands of Passengers on one station platform for the trifling monthly expenditure of Re. 1. Parties advertising on six Stations or more will be allowed a discount of ten per cent. twelve Stations or more, twenty-five per cent.

The boards to be delivered at the *Bombay Gazette* Office whence they will be sent by the Lessee to the various stations selected by the Advertiser. In the event of the contract terminating, the boards will be brought back to Bombay at the expense and risk of the Advertiser.

Special arrangements for long periods.
For further particulars apply to the Manager of he *Bombay Gazette* Office, Esplanade Road Fort.

PERMANENT SETTLEMENT for the DEKKHAN; by W. WEDDERBURN, Bombay Civil Service. Price, 8 annas; Postage, 1 annas.

MACLEAN'S
GUIDE TO BOMBAY
AND
BOMBAY DIRECTORY.
FOR
1888.

Printed and published at the "BOMBAY GAZETTE" Office.

INDIAN PRICE—Rs. 5; with Postage, Rs. 5-4.

THE GUIDE AND DIRECTORY for the year 1888 contains a great deal of new and interesting information connected with the immense progress made by the city in recent years.
The new buildings, which have added in the course of the year just closed over sixteen lakhs to the value of the property on the books of the Municipal Corporation for assessment purposes, are in themselves striking evidence of the continuous growth of Bombay.
While recording the advance that has been made in material prosperity, the Guide now gives for the first time a comprehensive account of the numerous charities which are maintained by the benevolence of leading citizens of the past and present generations.
The Directory has been carefully corrected and revised up to the day of going to Press.
To be had at the *Bombay Gazette* Office, Albert Buildings, Esplanade, Fort.

X. Y. Z.,
Bombay, May, 1888. Care of this paper.

PUNCTUALITY IS THE SOUL OF BUSINESS.

THE punctual man gets on and climbs the ladder of life. The unpunctual, the irregular, the untrustworthy man sinks to the lowest level. To become a punctual man, you must carry a reliable time-keeper. Everybody cannot afford a Watch, and it is often those most anxious to get on who can afford it least. It is to supply this want that the Waterbury Watch has been invented and is manufactured. Its cost is only Rs. 8-8, and yet it is a perfect time-keeper, and as such has risen into the very highest repute in England and America. It is worn by all classes, up to the very highest. Princes, Generals, Scientists, Literarians, Civil Engineers, Electricians, all wear it. Among late purchasers we may mention—Prince Albert Victor of Wales (son of the Prince of Wales), Prince William of Prussia (who sent us an order for thirty-six "Waterburys," and wears one himself). Queen Olga of Greece, the Crown Prince of Denmark, the Sultan of Morocco, George Augustus Sala, Edmund Yates (of *The World*), G. R. Sims, Professor Jamieson (of Glasgow University), Professor Edison (the World-known Electrician), etc., etc., and over 3,50,000 are being worn by the most enlightened Englishmen in the World.
The "Waterbury," although a low-priced Watch, is not a cheap Watch. It is one of the costliest in the world. Its price is Rs. 8-8, packed in a handsome Satin-lined box; but the first "Waterbury" ever made was the product of ten years' keen study, and the experimental expenditure of many thousand of pounds, and every "Waterbury" now manufactured is the result of 500 separate operations, and the product of a factory containing costly and intricate automatic machinery to the value of THIRTY LAKHS OF RUPEES.

THE WATERBURY WATCH.
IS A
KEYLESS, DURABLE, RELIABLE, ACCURATE TIME-KEEPER.
Price, Rs. 8-8. Price, Rs. 8-8.
GUARANTEED FOR TWO YEARS.
Repaired for one Rupee or less.
AT
ANY OF THE COMPANY'S DEPOTS.

HOW TO GET A WATERBURY.

It may be obtained from dealers in all parts of the country. From Soundy and Co., Ld., from the office of the Company, Medow Street, Bombay, or if order is sent by post to

WATERBURY, BOMBAY,
WATERBURY, CALCUTTA,
OR
WATERBURY, ALLAHABAD.

A perfect Watch timed to the minute and packed in Satin-lined box will be sent you by next mail by V. P. or Parcel post. Postage will be paid by the Company.

Insure your life by wearing a Waterbury.

The Company will pay the next of kin of any wearer of a Waterbury Watch, who may be killed (while a passenger) in an accident on any Indian Railway during 1888, the sum of One Thousand Rupees.
Clubs—Ten persons joining together and ordering ten Watches can get a reduction of one Rupee per Watch.
Chains for the Waterbury in all patterns—
Equal in appearance to Silver ... Rs. 1 4 & Rs. 2
Ditto ditto to Gold ... „ 3 0

BELLARY-KISTNA STATE RAILWAY.
NOTICE.

TENDERS are invited for completion of works on the Bellary Kistna State Railway, viz., in the Nandicanama Division from mile 117½ to mile 125 and in the Markapur Division from mile 125 to mile 161 under two separate contracts.
The works comprised will be Earthwork, including ordinary earthwork and Rock cutting, Masonry in Bridges and Culverts, Masonry in Stations and Buildings, Platelaying, &c.
Tenders should be sealed with wax and superscribed Tenders for works on Nandicanama or Markapur, Division, Bellary-Kistna State Railway. Tenders should be for all the above descriptions of works to be executed on a contract, and should reach the Engineer-in-Chief's Office before noon on the 25th of May 1888.
Tenders received after that date will be rejected.
On lodging a deposit of Rs 500 as earnest money, which will be returned if Tender is not accepted, applicants can obtain from Engineer-in-Chief forms of schedules of rates to be filled in and signed by them, also the conditions of contract to be signed by them, and the form of contract which the successful Tenderers will be required to enter into. Plans, sections, and drawings, together with the specifications of works will be open to inspection of Tenderers at the Office of the Engineer-in-Chief at Bellary.
Those whose Tenders are accepted will be required within 10 days of acceptance of the Tender, to make a deposit in cash or Government Securities of 3 per cent. of the total value of the work to be executed by them. A deduction of 10 per cent. will also be made from time to time from payment for works actually executed until the amount of such deductions, plus the original deposit, reaches a total of 6½ per cent. of the value of work to be executed.
In case no Tender for completion of the above work under contract should be made and accepted, petty contractors are also invited to tender on a schedule of rates for each such work. The terms on which such work is to be done and a form of schedule of rates to be filled in and signed by petty Contractors can be obtained from the Engineer-in-Chief on a deposit of Rs. 50 being lodged by each Tenderer as earnest money, which will be returned if terms are not accepted.
The Engineer-in-Chief reserves to himself the right to reject all or any of the Tenders without assigning any reason.
Joint Tenders by two or more persons will not be accepted. Tenders must be made and contracts entered into either in the name of one person or in the name of a firm, but the names of the members of a firm contracting must be furnished to the Engineer-in-Chief.
H. C. D. LATOUCHE,
Engineer-in-Chief,
Bellary-Kistna State Railway.
Engineer-in-Chief's Office, Bellary, 7th May, 1888.

TO BE SOLD pursuant to a judgment of the High Court of Justice (England), made in an Action of CONNORS and STRUTT *v.* THE NORTH-WEST PROVINCES and OUDE ICE COMPANY, Limited, with the approbation of Mr. Justice Kay. By Tender to be sent in to Edward Lionel Alexander Clarke, Chief Clerk, Mr. Justice Kay's Chambers, Royal Courts of Justice, London, England, on or before the 30th day of June, 1888, THREE ICE FACTORIES, the property of the abovementioned Company, with the Ice Engines (by Siddeley and Mackey), machinery, plant, and appliances, and the land, buildings, and appurtenances thereto belonging, situate respectively at Lucknow, Allahabad, and Agra in the North-West Provinces of India. The property at Lucknow consists of Factory and appurtenances and of Ice plant of the nominal capacity of ten tons per diem in two machines of five tons each held on Lease from the Deputy Commissioner of Lucknow as President of the Local Agency Department for an unlimited period at a rent of Rs. 21, annas 2 for the first 25 years, from the 1st April, 1880, after which period the rent is to be equitably adjusted. The property at Allahabad consists of freehold factory buildings and Ice plant of the nominal capacity of ten tons per diem in one machine. The property at Agra consists of a Factory and appurtenances with two Ice Machines of the nominal capacity of five tons each per diem held under lease expiring at the end of April, 1893, at a rent of Rs. 35 per month.
The Factories will be delivered up as going concerns as from the 1st April, 1888, with all materials, plant, and stores which may be found thereon at the time of delivery. Every Tender must state for which Factory or Factories it is made or if for the three Factories together, and every Tender must be accompanied by a deposit of ten per cent. of the proposed purchase money, or such deposit may (in India) be in Government paper endorsed in blank.
Facilities for inspecting the various Factories will be afforded intending purchasers on their making application to the Manager in India, P. C. Rubie, Esq., at the Lucknow Factory.
Further particulars and conditions with forms of Tender annexed may be obtained on application to the Manager in India abovementioned and of Messrs. G. H. K. and G. A. Tither, 24, Great Winchester Street, London, the Solicitors to the Plaintiffs, and of Messrs. Trinder and Co, 47, Cornhill, London, Solicitors to the above Company.—Dated this 28th March, 1888.
E. LIONEL CLARKE,
Chief Clerk.

CONTRACTORS for the supply of Machinery and erection of the Buildings for Cotton, Flour, Sugar, Oil Mills, Distilleries, &c.,
Manufacturers of all kinds of Cast and Wrought Iron Work of the heaviest description Cotton Presses and Hydraulic Machinery, Mill and Rope Gearing, Ornamental Castings, Road Rollers, &c. Wheels made by Machinery up to 4 feet diameter. Cutters made for Wheel-cutting Machines.
To enable us to meet all Engineering and Trade requirements we have lately added to our Works some of the largest and heaviest Tools in India, and greatly extended our Foundry.
We are also prepared to furnish designs for Bridges, Girders, Roofs, &c., and to manufacture and erect same in any part of India.
Sole Agents for Messrs. Leonard & Ellis' Celebrated Valvoline Oils for Cylinders.
Downie's "Eucalyptus," Boiler Fluid, for preventing and removing Scale in Boilers.
Messrs. Wormald & Co.'s Fibrous Non-conducting Composition for covering Steam Boilers and Pipes.
The Climax Motor, &c.
Also Plate, Bar, and Angle Iron of the largest sections. Diamond, Silver and other Stse and Engineer's Requisites of all descriptions kept in stock.
for Sale—Cochrane's Boilers, Shank's Engines and Pumps.

WORKS AND OFFICE, MAZAGON.

CERTIFICATE.—We have been using your Eucalyptus Boiler Fluid for the last seven months with the greatest success. We are enabled now to entirely dispense with scaling our Boilers, as the Fluid keeps the interior quite clean and prevents corrosion by an inky coating on the Boiler Plates.
It is the Best Composition for the prevention of Scale in Boilers we know of, after several trials with other Fluids extending over a practice of twenty years.

TO-DAY.

Indian Oil Mill and Manufacturing Company, 4 p.m.
Treacher and Company, 4-30 p.m.
Annual Meeting, Society for Promoting Christian Knowledge, 5-30.
Band, 4th Bo. Rifles, Yacht Club, 5-45 p.m.
Gaiety Theatre, Stanley's Co., 9 p.m.

VESSEL ARRIVED.—The following vessel arrived on the 12th :—Bhownagar (s), from Bhownagar. Yesterday :—Venetia (s), from Shanghai ; Clan Murray (s), Liverpool ; Sirrocco (s), Middlesborough ; Othello (s), Hull ; and Hindoo (s), Jamnugger.

VESSELS SAILED.—The following vessels sailed on the 12th :—Mobile (s), for Aden and Jeddah ; Hornhead (s), Dunkirk ; Stura (s), Jeddah ; Nowshera (s), Calcutta ; and Busheer (s), Marmagoa. Yesterday :—Laleham (s), for Havre ; Scotsman (s), Glent ; Surat (s), Aden ; and Indra (s), Antwerp.

VICTORIA DOCK.—The s.s. Mameluke, Niagara and ship Boadicea entered the dock Saturday.

PRINCE'S DOCK.—The s.s. Fastnet and Thibet entered, and the s.s. Henley, Stura and Hornhead left the dock on Saturday.

CHIARTE'S CIRCUS.—The public will not have many more opportunities of seeing this admirable entertainment, as the season will end on Saturday.

POSTAL NOTICE.—Mails for Colombo, Penang, Singapore and Hongkong, per extra s.s. Melpomene, will be closed at the General Post Office, at 4 p.m., to-day.

THEFT ON BOARDSHIP.—Mr. J. Robertson, the Third Officer of the s.s. Pachumba, reported to the police the theft of a silver hunting watch and a silver chain, valued at Rs. 75, from his cabin between 4 and 7 o'clock on Friday morning last.

AN APPEAL.—In the case of Ahmed bin Shaik Essa Khuliffa and others against Shaik Essa bin Khuliffa and others, the Hon. Mr. Justice Bayley discharged with costs some days ago the rule *nisi* for injunction and receiver prayed for by the plaintiffs. The latter have now filed an appeal against such order.

SUICIDE.—An inquest was held by the coroner, on Saturday, at Worlee Road, touching the death of Lakhee, woman, aged 50 years, who for the last two months suffered from fever and cough and was bedridden. She was missing from her bed at 4 a.m. on Friday, and subsequently her body was recovered from a well near her house. A verdict of suicide was re-

SUSPICIOUS CHARACTER.—Sewram Narayan, a character, was on Saturday charged, before Ryan, with being found loitering in a waddy ordwar on the night of Friday last, and failing a satisfactory account of himself, he being thief. The accused, on admitting his convictions, and being unable to find the bail for his future good conduct, was sen- to three months' rigorous imprisonment.

A TRIPLE CHARGE.—Krishna Balloo was, on Saturday, charged before Mr. P. Ryan upon three separate charges of theft of articles of wearing apparel, a brass lamp, and copper vessels, of the collective value of Rs. 6-10, the property of Nana Mahadoo and two others living in Khetwady 10th Street. The accused, a mill hand, lived close to the complainants. He was arrested on suspicion and the stolen articles were recovered from Marwarrees with whom the accused had pledged them. Pleading guilty to the three charges, he was sentenced to a term of nine months' rigorous imprisonment.

MUSIC AT THE YACHT CLUB.—The following programme of music will be played by the band of the 4th Bo. Rifles at the Yacht Club at 5-45 this evening :—

Quadrille.....	Anf Der Moldan.....Knobloch.
Mazurka	Love's Spell .....Strauss.
Gavotte	The First Kiss.....Schubert.
Waltz	Olivia .....Marriott.
Selection.....	Gerusalemme .....Verdi.
Waltz	Corpsball Taenze .....Gung'l.
Galop	Wie Der Wind.....Faust.

GOD SAVE THE QUEEN.

THEFT OF GOLD ORNAMENTS.—Sonoo Raghoo was, on Saturday, charged by Inspector Cobb, before Mr. P. Ryan, with stealing gold ornaments, valued at Rs. 81, the property of Sumboo Hurry, a mill labourer, from his house in Tank Bunder, on the 8th instant. The accused lived in a room adjoining complainant's. The ornaments in question were found to be stolen from a locked box during the absence of complainant on the 8th instant. The accused, who had absconded since the theft, was arrested on suspicion, and the whole of the ornaments were subsequently recovered from a Marwaree with whom he had pledged them. Pleading guilty to the charge, he was sentenced to three months' rigorous imprisonment.

DEATH FROM EXHAUSTION.—An inquest was held by the coroner on Saturday, at the J. J. Hospital, touching the death of a newly-born male child, which was found lying alive in the latrine of a house in Duncan Road on the night of the 4th instant and removed by the police to the hospital. Upon enquiries it was discovered that a woman named Salloo was the mother of the child. The child died, at 5-30 p.m., on Friday last. Mr. Hugh Murray, the apothecary of the hospital, was of opinion that the cause of death was exhaustion from exposure previous to its admission into the hospital, and a verdict to that effect was recorded.

DEATH OF RAO BAHADUR DAJIBHAI SUNDERLAL.—We regret to announce the death of Rao Bahadur Dajibhai Sunderlal on Tuesday last at his residence in Surat. Starting from the humble post of a karkoon, he rose to the most responsible posts a native could secure in the revenue and political departments. He was in succession a mamlatdar, daftardar, settlement officer, and a native assistant to the political agents. Most of the present senior political agents, as also not a few of the distinguished retired officers, like Gellasis, Rogers, Ellis, Borrodaile and Arbuthnot, have spoken in highly flattering terms about his competency and worth as a Government servant. The Government had presented him with a khillat. The Cayasth community, to which he belonged, has within a few weeks lost three prominent members—Rao Saheb Hiralal Maneklal, Divan Damodardas Haridas, and Rao Bahadur Dajibhai Sunderlal.

COMMITTED TO THE SESSIONS.—Six Chinamen, named Wangsee, Hansee, Johin Choi, Appoo, Nam-pow, and Wan-San, were brought up on remand and charged on Saturday last, before Mr. P. Ryan, with committing theft and extortion in respect of property consisting of 125 gold sovereigns and five watches, (one of gold, two of silver and two of metal) of the aggregate value of Rs. 200, the property of a Chinaman, named Chine Antone Pereira, on or about the 6th April last. Mr. Little, the Public Prosecutor, appeared for the prosecution, and Mr. Brown, of Messrs. Hore, Dooroy and Brown, appeared on behalf of the accused persons. The complainant, it appears, arrived in Bombay on the 6th April last, when he had in his possession 125 sovereigns and Rs. 22 in silver. The complainant, since his arrival here and being a perfect stranger, it is alleged, was swindled out of whole of his money, as well as the watches, by the six accused. The Magistrate, after recording the evidence of several witnesses for the prosecution, formally committed the accused for trial at the next criminal sessions of the High Court, and remanded them to jail.

HINDU MARRIAGE FESTIVITIES.

NOTWITHSTANDING the somewhat depressing state of the weather and the absence from Bombay of some of its notabilities, the evening party given by Mr. Vundravundas Purshotumdas on Friday, on the occasion of the marriage of his son, Devidas, proved as successful and as enjoyable as the host could, under the circumstances, have expected it to be. This success was due in a great measure to the excellent, airy situation of Mr. Vundravundas's bungalow above the Mahaluxmee Tank, with the sea beating against its north-eastern environments, as well as to the splendour of the decorations and illuminations, while all the other arrangements, made on a very liberal scale, contributed to the comfort and enjoyment of the guests. The Mahaluxmee Tank, situated a little below the host's bungalow, presented a unique sight with its huge stone pillars illuminated with coloured lanterns, and its wide stone steps and tiers lined with tumbler lights reaching down to the surface of the water, in which they found their reflection. Triumphal arches of gas moons spanned the passage by the side of the tank leading up to the host's bungalow, while each side of the passage was illuminated with rows of elegant frame-works of different designs, supporting coloured lanterns and tumbler lights. Mr. Vundravundas's three-storeyed house had its main outlines picked out with rows of coloured lanterns, and as the house stands on high hilly ground, the illumination was observable from such a great distance as the Parel Road. One big triumphal arch of gas moons displayed, in illuminated letters, the salutation of "Welcome" to the guests, while another exhibited an elegant device of two Cupid-like urchins riding on the back of an eagle, which was placed between the syllables forming the illuminated word "Welcome." The bungalow and garden-grounds of Mr. Damodhur Thackersey Mooljee, which adjoin the host's house, and had been placed at the latter's disposal, had been fully utilised and added to the success of the evening party. The decorations and illuminations here, from their excellent situation, appeared to great advantage. Long lines of gas moons, standing breast-high, and supporting triumphal arches, with continuous rows of Chinese lanterns suspended from them, formed a girdle round the bungalow and the garden-grounds from one end to the other. On a higher and hilly ground to the east of the bungalow, with which it communicated, had been erected a beautiful *shamianah* for the accommodation of the guests ; and all its arrangements appeared to have been made tastefully and artistically. Elegant arches, draped with creepers, evergreens, and flowers, formed its entrance, which, on either side, was decorated with transparencies exhibiting in front life-size figures of Hindu women, dressed in tight fitting *chowlees* and *sarrees*, welcoming the guests with a shower of flowers ; while in their rear, they displayed (to the guests seated in the *shamianah*) life-size figures of European ballet-girls engaged in the pleasant pastime of strewing flowers in their path. Rich draperies, crystal chandeliers and flower baskets, &c., lent the *shamianah* an air of elegance and comfort, which the guests seemed to enjoy, while a company of *nautch* girls danced and sang for their amusement. The band of the Gloster Regiment, stationed in the compound, played a selection of music during the evening. Those who preferred the cool, open air retired to the rear of the garden-grounds, which were carpeted throughout, and where seats and small tables had been placed for different groups of guests. At the entrance of the *shamianah* the guests were received by Mr. Vundravundas, his elder son, Mr. Ranchordas, Mr. Damodur Thackersey Mooljee, and others. They were drawn from all classes and sections of the community, about five hundred invitations having been issued, which for the most part were responded to. As a Justice of the Peace, a member of the Municipal Corporation, a prominent member of local society, and a leader of his caste, Mr. Vundravundas is held in general esteem in the community. Succeeding in the business of his relative, the late Mr. Cullianjee Sewjee, who rendered valuable service as a Commissariat contractor in the Transport and Supply Department at the time of the Central India Field Force and subsequent Expeditions, and had conducted the carting agency of the G. I. P. Railway during the construction of the Bhore Ghaut and Thull GhautRailway works,&c., Mr. Vundravundas turned his resources and opportunities to good account and amassed a large fortune. He has taken a large share in encouraging the mill industry of Bombay, and is at present the chairman and a director of the boards of several mill and press companies. His hospitality was, therefore, largely availed of at the evening party he gave on Friday, among those present being:—Sir Jamsetjee Jeejeebhoy, Bart., C. S. I., Prince Samatsinghjee of Palitana, Colonel H. H. Stuart, Colonel James Fagan, Messrs. F L. Charles, Herbert Batty, P. Ryan, H. W. Uloth, J. W. Smith, Dr. Sidney Smith, Miss Dr. Peechy, Messrs. S. Tomlinson, H. W. Barrow, James Leask, G. F. Horbury, E. Wimbridge, T. F. Wood, R. B. Sedgwick, Alfred King, G. B. Pilcher, A. Rhenius, E. Pottinger, W. Hair, S. W. Chart, C. R. Marcks, A. King, J. Benson, R. A. Willis, E. H. Elsworthy, F. C. Allen, W. G. Wilson, Dr. C. F. Underwood, Dr. Da Gama, Dr. J. De Cunha, Messrs. Dosabhoy Framjee, C. S. I., Muncherjee M. Bhownuggree, C. I. E., Jamsetjee Cursetjee Jamsetjee, Muncherjee N. Banajee, Byramjee Nusserwanjee Servai, Khimjee Jewa, Damodhur Thackersey Mooljee, Govindjee Thackersey Mooljee, Currimbhoy Ebrahim, Nusserwanjee Merwanjee Panday, Hurkisondas Narotumdas, Dhurumsey Soonderdas Mooljee, Khan Bahadur M. C. Murzban, Khan Bahadur Byramjee Dadabhoy, Pundit Shamjee Krishnajee Varman, Rao Bahadur Purbhudas Kishundas, Messrs. Tribhowundas Munguldas Nathoobhoy, Purshotumdas Munguldas Nathoobhoy, Cursondas Vallabhdas, Sorabjee Framjee Patel, Hassumbhoy Visram, Fazulbhoy Visram, Virchund Dipchund, Jamsetjee Cursetjee Cama, D. D. Ghandy, N. R. Ranina, Vijbhucandas Atmaram, Rustom K. R. Cama, Eduljee Rustomjee Reporter, M. B. Dadabhoy, Eduljee Bomonjee Morris, Framjee Temooljee Mirza, Shewjee Dhurmajee, Dr. Rustom N. Ranina, Messrs. Furdonjee Jamsetjee Parakh, Dinshaw Jamsetjee Parakh, Muncherjee C. Ratnagur, Muncherjee Shapurjee Lungrana, Hajee Sulleman Abdool Wahed, Dyabhoy Jaduram, M. M. Moonshi, Bhaskerrao Balkrishnajee, Mooljee Bhowanidas, Javerilal Umiashunker Yajnik, Jamsetjee Pallonjee Kapadia, Nowrojee Byramjee Suntok, Harichund Sadashiwjee, Vundravundas Ramjee, Jamnadas Ramjee, Vussonjee Khimjee, Rahmoobhoy Allana, Ramchunder Hemraj, Gocouldas Damjee, Ramdas Chubildas Lulloobhoy, Gunputrao Shrikrishnajee, Cumulsey Premjee, Ruttonjee Cursetjee Wadia, Cursondas Hulloo, Harichund Yadhowjee, Nenseybhoy Khairajbhoy, Munchersha N. Ranina, Dinanath Raghunath Khote, &c. About 10-30 p.m. an adjournment was made to the refreshment *buffets*, tastefully arranged in a separate compartment of the *shamianah*, where every delicacy was liberally supplied. Orthodox Hindus had their refreshments, consisting of warm, spiced milk, and toothsome native sweetmeats, served to them in a separate room. The evening party broke up about midnight with the distribution of garlands and bouquets of flowers, rose-water, &c.

On Saturday evening, a similar entertainment was given to many of those present on the preceding evening as well as to a large number of native merchants, dealers, and others. The band of the Gloster Regiment played a selection of music during the evening ; and a company of *nautch* girls danced and sang for the amusement of the guests.

Yesterday afternoon, at 5 o'clock, a grand gathering took place at Mr. Vundravundas's residence in connection with the marriage procession. Representatives from all classes and sections of the community, including nearly all leading citizens now in Bombay, were present, clad in their long flowing snow-white gowns, girdled at the waist with white "kummerbunds." The band of the 4th Bombay Rifles discoursed music during the afternoon and evening ; and throngs of native spectators turned out to see the *tamashah*, which was attended with much splendour. Towards sunset, the marriage procession moved from Mr. Vundravundas's residence to the residence of the father of the bride at a short distance. Mr. Vundravundas is well known at the durbars of native princes ; and in connection with the marriage of his son he was presented yesterday with court dresses of honour from H. H. the Gaekwar of Baroda, H. H. the Rao of Cutch, H. H. the Thakore Saheb of Bhownuggur, and others. The ceremonies terminated in the evening with the distribution of money in charity and to the Brahmin priests, and presents to friends, relations, and others.

SPRINTING AT SIALKOT.

A CORRESPONDENT writes :—"On the 5th instant the 2nd Dragoon Guards and Border Regiment turned out in force to witness a long-talked-of race between Private Penington, 2nd Dragoon Guards, and Private Todd, Border Regiment, for Rs. 200 a-side. The race was 200 yards, and they were to start at the sound of a pistol shot after the starter had asked the competitors 'Are you ready ?' Todd was the favourite on the ground, 2 to 1 being offered on him. Nearly every man in each regiment had his bottom dollar on the race, and there was intense excitement amongst the spectators when the champions shook hands and got into their places. Then was heard the pistol shot, and Todd was seen running alone down the course, Pennington not having started. It is hard to understand why he did not start, as the starter, Sergeant-Major Oakley, D.A, R. H. A., says both men were on the line, and he gave them the caution 'Are you ready ?' and fired the pistol. The 2nd Dragoon Guardsman swears he was two feet behind the line and was not ready."

THE NATIVE PRESS.

THE BORAHS IN CUTCH.

THE attention of the Native Press generally has been drawn to the very disappointing reply given by the Maha Rao of Cutch to the deputation of Boree Merchants that waited on his Highness during his short stay in Bombay *en route* to Mahableshwar. An invidious race-distinction between the Hindu and the Mahomedan subjects of the Rao was the subject of the grievance laid before his Highness, and the wonder is that an educated and enlightened prince like H. H. Sir Khengarji should have failed to appreciate the frivolousness of a custom having its origin in nothing but petty race-jealousies. The disability complained of by the Mahomedans consists in their being not allowed to ride on horseback, a luxury which particularly calls for the indulgence of the State, as marriage is the chief occasion in life on which the Mahomedan enjoys a ride in state to the house of the bride. But in the words of H. H. the Maha Rao the Hindu custom dates from "time immemorial," which prohibits a Mahomedan from indulging in a ride even on the day of his wedding in the streets of Cutch ; and it was only after many a head broken in a serious riot that the privilege of riding was conceded to the Boree, but the concession was restricted within the narrow limits of a few back lanes in the city, beyond which the Mahomedan cavalier even on his wedding march dare not make his appearance. His Highness, with every sympathy for his aggrieved Mahomedan subjects, imparted a ludicrous gravity to this petty matter by calling the above concession "a thin end of the wedge," and the only hope he could hold out to his humble petitioners was for a gradual abolition of their disability, which may mean a hundred years hence or more. We talk of race-distinctions created by the English in India. Here is a sample of race-distinctions indigenous to the soil and instituted from "time immemorial" in the Native States long before the advent of the British. With such petty jealousies reigning supreme, where would the Hindus and the Mahomedans and the Parsees be if the British were to retire from India to-morrow ?—*Rast Goftar*.

THE REVOLT AT THE MADRAS CHRISTIAN COLLEGE.

One of the sorriest spectacles witnessed in connection with the educational movement in India is that strike of the students of the Madras Christian College. We prefer to call it a strike rather than a revolt ; for the latter means much more than a Hindu, whether he be merchant, politician or student, is capable of. A strike is a comparatively harmless diversion, by means of which the mild Hindu generally relieves his feelings. But we should be sorry to see even this form of protest too often adopted by students without grave cause. In the present case, we are afraid our young friends have been carried away by sentiment, leaving their reason behind. But there may be something behind the telegraphic reports to justify their action. We should like to know more about it. In the meantime, we hope, the students will look before they leap. The conversion of a fellow-student, if it is a matter of choice, is no excuse for wholesale withdrawal. Principle is a good thing to fight for, but it involves an amount of patient self-sacrifice which they have to show least who talk most. If there is to be a "national" college, where is the money for it, and where are the men ? The authorities of the Christian College appear to be firm ; and honestly we know not how they could be otherwise if they have reason on their side.—*Indian Spectator*.

ALLEGED KIDNAPPING AT POONA.

THE hearing of the case, in which a Mahomedan, named Shaik Ismail, charges the Sister Superior of St. Mary's Home with kidnapping his granddaughter, was resumed before the Cantonment Magistrate, Colonel Bolton, at Poona, on Friday. The child was placed under the care of the Sister Superior by a woman, named Moona, the mistress of the complainant, who said she was her daughter's daughter, which daughter was by a former husband, a Maharata, and not by complainant. Complainant, on the other hand, says he is the father of the child's mother, and was appointed her guardian on the mother's death. He therefore claims her. The Sister Superior refuses to give the child up, pending the orders of the Court.

The complainant, addressing the Court, said he did not wish to proceed with the case. Whether the child was his, or not, he desired to waive his claim.

His Honor said he could not quash the case, as the charge he had brought against the Sister Superior was a non-compoundable one.

Moona, woman, examined by the Court, said :—The child is the daughter of my daughter, named Sukoo, and was born in Poona. Sukoo is dead but the father is alive. His name is Ganoo, and he is at Chicklee. The age of the child is about 7 years. It is about 3 years since the child's mother died. The child, complainant and myself were present at the time. The child was then in my charge. I placed the child in St. Mary's Home. I passed a bond on that occasion. I agreed not to claim the child again. I have witnesses to prove that the child is the daughter of my daughter.

Q.—In your bond you say the father and mother of the child are dead, you now say the father is alive, how do you account for that ?

A.—The bond passed was not properly explained to me. I did not mention that the father was alive as the child would not have been received into the school. The case was again postponed for the evidence of the child's father.—*Deccan Herald*.

EMBEZZLEMENT BY A CHINAMAN.

WONG HONE LIN *alias* Walter, who had embezzled a large sum of money at Calcutta and absconded to Bombay where he was arrested, was sentenced on Wednesday at Calcutta to six years' rigorous imprisonment. The prisoner was employed in the firm of Man Fong, dealers in Chinese curios in Calcutta, as a clerk on Rs. 20 per mensem, and it was his duty to write all the English required by the members of the firm, who, though they could speak the language, had not sufficient knowledge of it to write it. The business of the firm was carried out in two offices—the merchants' office and the shop : the prisoner was employed in the former, and had been in the service of the firm for about two years. The firm had been in the habit of borrowing money in the bazar when they needed it on promissory notes and these notes were written by the prisoner in the name of the firm in English. The prisoner was authorised to do this, and on the notes being signed the money was obtained from native money-lenders. In July last year there was a sum Rs. 10,000 due to Buldeo Dass, and the note was renewed every month till December 1887, while the interest was regularly paid every month. At the beginning of January this year the prisoner represented to the cashier that Buldeo Dass would not renew the note and was pressing for payment. He said he had seen Buldeo Dass who said he was not willing to wait any longer. It became necessary to raise the money in order to pay him off, and four hand notes—two of Rs. 3,000, one for Rs. 2,500, and one for Rs. 1,500, in all Rs. 10,000—were made out and the money was obtained from certain mahajans. The notes were signed, and the prisoner was entrusted with the realisation of the money. He subsequently stated that the money had been received, and the sum of Rs.10,000 was accordingly credited in the firm's books. There was a small sum of Rs. 68 due on account of interest to Buldeo Dass, and this, together with the Rs. 10,000, was made over to the prisoner, who was instructed to pay it to Buldeo Dass. This he represented he had done ; but two or three days after the firm of Man Foong learnt that Buldeo Dass still had the claim against them. Enquiries were instituted, and it appeared that, instead of paying the Rs 10,000 to Buldeo Dass the prisoner had got him to renew the old note, and the old note which was given to him he had shown to his employers and made them believe that it was Buldeo's receipt for the money. The promissory note for Rs. 1,500 he had also altered to Rs. 2,500 ; the firm also discovered that in December last year he had forged and obtained Rs. 2,500 on another promissory note. Shortly after these forgeries were committed, the prisoner absconded. The jury recommended him to mercy on account of his youth and the temptations thrown in his way.

VALUABLE DISCOVERY FOR THE HAIR—If your hair is turning grey or white, or falling off, use "The Mexican Hair Renewer," for it *will positively restore in every case Grey or White hair* to its original colour without leaving the disagreeable smell of most "Restorers." It makes the hair charmingly beautiful as well as promoting the growth of the hair on bald spots, where the glands are not decayed. Ask your Chemists for "THE MEXICAN HAIR RENEWER," sold by Chemists and Perfumers everywhere at 3s. 6d. per bottle. Sold wholesale by the Anglo-American Drug Co., Limited, 33, Farringdon Road, London.

A RUSSIAN OFFICER'S DIARY IN INDIA.

THE diary of Colonel Timler, the Russian representative at the great camp-of-exercise at Pindi, has been published. With regard to the Bombay Presidency, he says :—

Two railway systems start from Bombay ; one northwards, which runs along the west coast of the Peninsula through Gujerat to Delhi ; the other eastwards and to Calcutta. We went by the first of these lines. After the ball given by the Bombay Yacht Club we drove off to the terminal station of the Bombay, Baroda and Central India Railway Company, where a special train awaited us.

The construction of railways in India began in the year 1850, first from the Bombay side, and some years afterwards from Calcutta ; and thanks to the absence of all outside conditions the several Indian railway systems have been constructed in accordance with local, political and economic requirements. It is only, indeed, of late years that purely strategical lines have been set in hand and constructed. It is for this reason that we now see in India the most varied types of railway, with gauges ranging from 2 feet, to 5½ feet ; but still the principal lines are of the broader gauges. After a gradual development the Indian railway system now measures 12,378 miles of iron roadway, and 13,767 more miles are in various stages of construction or survey.

On account of climatic conditions the carriages of the 1st class, which are for the most part used by Europeans, have been built with a view to great comfort. Each of these carriages is divided off into two compartments and these compartments are supposed to hold 6 passengers by day and 4 by night ; attached to each compartment there is a dressing room, and on some of the newer lines there are even bathrooms or facilities for having a douche. All the windows of the carriages are double, one of the window frames being fitted with coloured glass—a most necessary precaution in view of the preservation of one's eyesight, which would otherwise be injured by the great glare.

In the hot weather, in order to cool the atmosphere inside, on either side of the carriage a special contrivance filled with ice and straw * is attached, and through this cool air passes as the train moves on. A person who is unacquainted with the Indian climate may consider all this luxurious ; but, as a fact, for unacclimatised people such contrivances are a positive necessity, since Indian railway statistics reveal the fact that amongst European travellers fatal cases arising from the effects of Indian hot weather travelling are very frequent. But those who can enjoy such comforts have to pay at a comparatively very high rate, *viz.*, 1½d, for every ¾ mile; travelling in carriages of the 3rd class being five times cheaper, and on certain lines the rates are even lower still according to the speed of the train and the distance to be traversed, the charges being regulated by a progressive tariff. In each train carriages are set apart for the use of both Europeans and natives, and this seems perfectly natural when it is considered what a real difference there is between the races. Indeed, to some Europeans the presence of a native is as disagreeable as the society of a European is held by a native to be on account of diverse notions with regard to "caste prejudices."

It is extremely interesting to witness a crowd of natives entering the railway carriages set apart for them. Immediately a bell has sounded the doors leading on to the railway platform are thrown open, and a medley rushes forth with shouts and noise of all kinds and throws itself into the carriages, which are all divided off into compartments. Each individual endeavours to locate himself besides his caste-fellow ; and Mussulmans will not, if they can help it, enter a compartment which is occupied by Hindus. The natives of India have taken very readily to railways, which have indeed been of a certain amount of use in breaking down caste divisions ; but much time is necessary before the false ideas of long-established ages will finally disappear, and before all remaining obstacles to the progress of this richly endowed country will be altogether removed. According to the return of the year 1885 about 78,000,000 passengers are carried in wagons of the 3rd and 4th classes !

On our arrival in Bombay to each of us was attached a Portuguese servant from the province of Goa. Natives of this province seem to follow one of two professions, *viz.*, domestic or table attendants and cooks. Accordingly, when we reached a given railway station, we found our traps ready placed for us and our bedding laid out, so all that we had to do was to occupy the places prepared beforehand for us, two going into each compartment.

The distance between Bombay and Delhi is 838 miles, and the railway passes *en route* through a very interesting country ; but we unfortunately halted at two places only, *viz.*, Ajmere and Jeypur, so that we had to make ourselves acquainted with other points of interest on the journey by means of publications of various kinds. Right up to Surat the line runs very near the sea coast and during a distance of 167 miles it crosses many rivers and creeks by means of large bridges and viaducts. Surat at one time enjoyed a great notoriety, for when the route round the Cape of Good Hope was opened in the beginning of the 17th century, the first English factory in India was established here ; but this point gradually lost its importance with the development of Bombay, which soon became a trading centre with wider connections. Surat, however, is still celebrated for its manufactures in sandal and black-wood.

The next point, Broach, is situated on the river Nerbudda, 20 miles from the mouth. In the 18th century that was the sole point by which trade was maintained between India and the ports of Western Asia. Not far from the town of Surat and close to the river Nerbudda there is a remarkable tree, (the *pipal ficus religiosa*) which covers with its pendant branches four acres of ground. There exists a legend that the goddess of the Nerbudda would never allow a bridge to be built across the river, but it was left for a railway company to overthrow this absurd notion, for a bridge was thrown across the Nerbudda in the year 1860. It is true, though, that this bridge was twice broken down during the monsoon season. The new bridge over this river, built in the year 1881, has a length of 4,020 feet and rises on 67 stone piers to a height of 78 feet.

On the line of railway and at a distance of 44 miles from Broach lies Baroda, the capital of an influential native Prince whose State was released from the payment of a tribute to the English Government for services rendered during the period of the Sepoy Revolt of 1857. It was first of all proposed that we should halt at Baroda and have an interview with the Gaekwar, but this idea was afterwards abandoned—in all probability lest the foreign guests should become too well acquainted with a native ruler. The Gaekwar's army includes two batteries of golden and two of silver guns.

Of not less interest is the town of Ahmedabad, which also lay on our route ; but unfortunately our stay here was too short (just enough for us to have dinner) to enable us to visit it. Ahmedabad is now the head-quarters of the northern division of the Bombay Army. It is the southern terminus of the Rajputana Railway so that here we had to change carriages ; but these we found to be just as comfortable as the ones from which we changed.

From Ahmedabad northward for a considerable distance the country is covered with forest, for the preservation of which throughout India the Government is adopting energetic measures ; the more so because, prior to the consolidation of English dominion this article of national wealth and of the well-being of future generations was completely neglected by the various native rulers, the forests being mercilessly hewn down and large tracts of country therebe converted into barren wastes. Towards evening we began to rise to the high plateau of Abu, the summit of which rises to a height of 5,653 feet above sea level. The next morning we reached Ajmere, which was one of the places selected for a halt. At the railway station representatives of the English society of the place awaited our arrival and we soon started off in carriages to see the town.

BANK OF BENGAL.

THE following is the statement of the affairs of the Bank of Bengal for the week ending 8th May as compared with the statement of the 1st May 1888 :—

THE REVIVAL OF HINDUISM.

THE *Madras Mail* says:—A Hindu Tract Society has been established with its headquarters in the City of Madras, and with agencies in several parts of the Presidency. It devotes its energies to attacking Christianity, and to propagating Hinduism. It pays an unintentional tribute to the success of Christian Missions, but it also makes a bold stand for the ancient faith of the majority of the people of this land. It desires to carry the war into the enemy's camp, and to defeat him with his own weapons. It employs agents to confirm Hindus in their faith, and to publish abroad the alleged inconsistencies of Christianity. It does not proselytise, but it shows a desire to receive back on easy terms those who have been converted to Christianity. Its publications are eloquent of much hostility to Christianity. For example, the C. M. S. *Gleaner* gives the following literal translation from one of the tracts :—

"How many hundreds of thousands have these padres turned to Christianity and keep on turning ! How many hundreds of dear children have they swallowed up ! On how many more have they cast their nets ! How much evil is yet to come upon us by their means ! If we sleep, as heretofore, in a short time they will turn all to Christianity without exception, and our temples will be changed into churches. ..... When Christianity has laid waste the land, will a blade of Hinduism grow there ? Now who cares to speak about those things ? When the flood rushes over our heads it will be too late. It is because of our carelessness that these strangers insult our gods in the open streets during our festivals. Is there no learned pandit to be secured for money who will crush the Christians ?"

Size 3 inches by 4½ inches.

Can be easily carried in the waistcoat pocket.

Cloth Limp Cover.

Price, Annas 4.

To be had at the *Bombay Gazette* Press.

COMMERCIAL INTELLIGENCE

SATURDAY EVENING, MAY 12.

THE advance of ½ in Consols in London on Thursday was lost again yesterday, Reuter's quotation being 99½. French Rentes, in Paris also, were ¼ per cent. lower, at 105½. Silver was 1-16d. lower at 42⅛d. per oz., but Rupee Securities were unaltered, as also was Indian Sterling Loan. Hongkong and Shanghai Bank shares were £1 per share dearer at £50. We learn that there was a further fall of 1-16d. in Silver to-day, making the price 42 1-16d. per oz.

In General Produce, Linseed was firmer, and Calcutta seed was 3d. per quarter higher to arrive. Rapeseed was quiet and unaltered in value. In Wheat, No. 1 Soft White was 2d. per cental dearer in Liverpool; but all other quotations come unaltered. The total Wheat afloat for the United Kingdom yesterday was 2,020,000 quarters, or 70,000 quarters more than was upon the water a week ago.

The Liverpool Cotton Market closed quiet last evening, the total sales, at 8,000 bales (inclusive of 700 Surats), having fallen short of the morning's estimate by 2,000 bales. Spot prices were quite unchanged; but in American Arrivals there was a drop of 3-64d. for July-August, and of 1-32d. in all other positions. From quiet the market went to dull to-day, the sales aggregating 7,000 bales, including 500 Surats; but rates, both for ready Cotton and Arrivals, have been without further movement. Manchester had been steady at previous quotations.

A quieter feeling prevailed in the Liverpool Market last week than in that which preceded it. The total sales for the six days were at 66,000 bales, 13,000 bales less than for the week before; and the advance of 1-16d. in Mid-Uplands gained at the beginning of the week was lost on the following day. The Imports were only 32,000 bales, or 66,000 bales less than for the previous week; and the stock, at 780,000 bales, was lighter by 50,000 bales. The latter was thus 202,000 bales less than it was at this time last year; though some 145 bales heavier than it stood at in 1886 for the corresponding week. Surats have been unusually firm, and an advance in Oomras and Dholleras was established in the middle of the week. The stock of Surats, which had decreased during the week by 10,000 bales, stood yesterday at 72,000 bales; and it will be noticed from our annexed comparative statement, that there were 114,000 bales less East Indian Cotton on the water for Liverpool yesterday than were afloat at this time last year, and even as against 1886 there was a deficiency of 25,000 bales. The total visible supply had further decreased by 100,000 bales since last Friday; while, of East Indian Cotton, there were 11,000 bales less in sight. Compared with the two previous years the estimated falling-off in the total supply is now 200,000 bales and 168,000 bales, respectively; while in East Indian Cotton alone there is a deficiency of 149,000 bales as against last year, and a slight increase compared with 1886.

There was no change in the spot price in New York yesterday; but September Futures were 5 points lower, at 9·67 cents. The Receipts at the U. S. Ports were 5,000 bales, making the week's total 3,000 bales more than for the previous week, and the figures for comparison with the two preceding years as given below. From these it will be seen that the margin of increase this season, compared with last, has expended to 142,000 bales; while, as against 1885-86, it is about the same as it stood at a week ago. It will also be noticed that while the Exports to Great Britain and the Continent aggregate 4,000 bales more than they did at this time in 1887, the Stock of Cotton at the U. S. Ports is heavier than it then was by 76,000 bales.

There was no further change in prices in New York to-day, 10 cents being still the quotation for ready Mid-Uplands, and 9·67 cents for September Futures. The Receipts at the U. S. Ports were 4,000 bales, against 1,000 last year, and 5,500 in 1886.

The American Crop figures to date give the following comparisons with the two previous seasons:—

	1888.	1887.	1886.
Week's receipts	36,000	14,000	37,000
" exports to U. K.	35,000	10,000	56,000
" " Continent	16,000	5,000	11,000
Total receipts since 1st Sept.	5,288,000	5,146,000	5,124,000
" exports to U. K. "	2,511,000	2,519,000	2,393,000
" " Cont. "	1,650,000	1,638,000	1,620,000
" Stock in the Ports	166,000	390,000	615,000

The total visible supply of Cotton for all Europe on the 11th inst. affords the following comparisons with the two previous years:—

	1888.	1887.	1886.
Total supply of all kinds	2,270,000	2,470,000	2,438,440
" " Surats	456,000	605,000	447,710

For the United Kingdom only the figures are:—

Stock in Liverpool	780,000	982,000	635,230
" London	19,000	15,000	21,000
American Afloat	60,000	30,000	170,000
East Indian "	63,000	177,000	88,000
	922,000	1,204,000	914,230
Price of Mid.-Uplands	5 7-16d.	5⅞d.	5⅛d.
" Good Fair Dh ollera	4 3-16d.	4¼d.	3⅜d.
Difference	1¼d.	1⅜d.	1¼d.

Our local market opened with a very quiet feeling this morning, and the few buyers who came forward were not prepared to pay within a rupee or two of yesterday's rates. Sellers, however, were pretty steady upon the whole, and exceptionally firm in the case of Bengals, and only a small business was eventually done, some reduction having been conceded in the case of Bhownuggur. The few sales reported, amounting in all to not more than 1,500 bales, consisted of Julgaum at Rs. 201-9; Bhownuggur, at Rs. 201-3; Dharwar, at Rs. 210; Mowa, at Rs 214; Compta, at Rs. 189; Barsee, at Rs. 214; and Westerns, at Rs. 199 per candy.

WHEAT continues to come to market in large quantities, and the Receipts from the beginning of the year are some 370,000 cwt. behind those of 1887 to the same date. A moderate business is reported, chiefly in Ekdani, and the market is firm at the following quotations, which represent buyers' and sellers' prices, respectively:—

White Pessy (91 per cent.)	Rs. 4-6-0	to Rs. 4-6-3 p. ct.
Do. (85 ")	" 4-5-0	" 4-5-3 "
Ahmedabad	" 4-2-9	" 4-3-0 "
Delhi No. 1	" 4-4-6	" 4-4-9 "
Red Delhi	" 4-1-6	" 4-1-6 "
Hard Yellow (63 per cent)	" 4-6-6	" 4-7-0 "

SEEDS are steady and fairly active, business being reported both in Linseed and Rapeseed at current rates. The former is unchanged at Rs. 6-2-6 per cwt. for this month's delivery, Rs. 6-3-6 for June, and Rs. 6-4-0 for July for bold seed; and Rapeseed is firm at the following enhanced quotations, dealers being rather keen buyers to cover previous speculative sales.

Yellow Cawapore	Rs. 6-2-0	per cwt.
Brown do.	" 5-8-6	"
Do. Delhi	" 5-8-6	"

Yellow Guzerat is quoted at Rs. 6-8-0 per cwt., but is not in request. Poppy Seed is firm at Rs. 6-12-0 per cwt.

The Receipts of Produce into Bombay yesterday were as follows:—

Cotton	10,380 bales.
Wheat	82,075 cwts.
Linseed	19,903 "
Rapeseed	12,699 "
Gingelly	739 "
Poppy Seed	2,080 "
Groundnuts	1,350 "

FREIGHTS are dull, nominally at our last quotations; but there is little ready cargo offering, and hardly any enquiry for arrival tonnage. Business is reported to-day at 19s. to 20s. for *chow-chow* cargo.

EXCHANGE opened this morning with a weaker feeling, and closed in the same state, with Bank Bills and Mercantile Paper 1-32d. lower than last evening's quotations. Some 3 months' sight Credits were placed at our quotation, at which, however, very few bills have offered; and a small amount of ready Wire Transfer has been taken by a bank, at 1s. 4⅛d. Bank demand is quoted to the end of June at 1s. 4⅛d. and thereafter at 1-32d. higher. Ready rates are:—

Bank Bills on demand	1s. 4⅛d. per rupee.
Do. Telegraphic	1s. 4⅛d. "
Do. 3 months' sight	1s. 4 3-16d. "
Credits do. do.	1s. 4 9-32d. "
Francs do. do.	1·72½ "

GOVERNMENT PAPER opened rather higher, Fours for cash having been quoted at 100 7-16; but this slight improvement was not maintained, and the closing rate for money was 100⅜; while 100½ was quoted for the comingsettlement, and 100 1-16 for the 30th June account, with little doing on any line; 4½ per cent. Paper is stationary at 106½.

SHARES have been neglected to-day, and the only changes in our list to which we have to call attention this evening are an advance of Rs. 5 each in Mofussil Press, Manmar Manufacturing, and Swadeshi Mill; and a decline of Rs. 5 on New Great Eastern S. & W.; and of Rs. 2½ in Colaba Land and Mill.

DOMESTIC OCCURRENCES.

[THE CHARGE FOR NOTIFYING A DOMESTIC OCCURRENCE IS TWO RUPEES; THE ANNOUNCEMENT MUST BE AUTHENTICATED.]

AT SEA.

DEATH.

MIDDLEMASS.—April 10, on board H M S "Malabar," on the voyage home, Major C Middlemass, 2nd Battalion, 17 (The Leicestershire) Regiment.

OTHER PRESIDENCIES.

BIRTHS.

GARTSIDE-TIPPING.—May 5, at Dalhousie, the wife of Captain R Gartside-Tipping, 1st B C, DAQM-General, Lahore Division, of a daughter.

MARSHALL.—May 5, at Calcutta, the wife of A W Marshall, of a daughter.

MARRIAGE.

YONGE—DALZIEL.—May 7, at St. Mary's Church, Calicut, Malabar Coast, by the Rev A H B Brittain, M A, Chaplain, George Langford Yonge, youngest son of the late Rev Frederick William Langford Yonge, of Great Torrington, Devon, to Ellen Mary, (May), second surviving daughter of the late John Dalziel, Esq., Ceylon, CS.

DEATHS.

BURTON.—May 4, at Jullundur, Ivy Florence Maude, the dearly beloved infant daughter of Cecil and Agnes Burton. Aged 1 month and 22 days.

DE SILVER.—At Calcutta, on the 7th instant, Mr J G de Silver, pleader, Cal Small Cause Court.

GIBLIN.—April 24, at Mandalay, of cholera, R Giblin, Guard on the Toungoo-Mandalay Extension of the Burma State Railway.

JUDGE.—May 5, at Dagshai, Captain James Judge, in Charge Military Prison, aged 54 years, 1 and month.

LOCH.—May 7, at Mount Abu, Dermot William, the infant son of Major W Loch, Bombay Staff Corps, aged 21 days.

The Bombay Gazette

MONDAY, MAY 14, 1888.

IF the Government of Madras have already sent in their answer to the circular of the Government of India on moral culture and discipline in schools and colleges, they will find it necessary to supplement it with some observations based upon the recent revolt in the Madras Christian College. That episode is unfortunate and embarrassing, but it will not have come amiss if it leads to a lowering of expectations in regard to what is possible of attainment by direct and specific attempts to impart a particular kind of ethical instruction to unwilling and unsympathetic recipients. For in the Madras Christian College doctrine and morals were taught with no uncertain sound. The teaching of the College is in close accord with its name. It is a Christian College, and those who attend it are instructed in the whole body of Christian doctrine. The Brahmin student is instructed in the Christian scriptures; he stands, with all the appearance of reverential compliance, while Christian prayers are being offered by Christian professors. Yet he remains a Brahmin all the same; he takes it as an outrage upon his ancestral belief when one chance proselyte is persuaded to wander from the fold of Hinduism, and so weak is the discipline associated with the religious teaching with which he makes a sham compliance that the rumour of an impending conversion makes him mutinous, provokes him to send challenges to his teachers, and upsets his equilibrium altogether. Whether or not there is an excuse for him we do not now enquire. "His poverty but not his will consents" is the excuse for his wholesale countenancing of the forms of Christian teaching which sympathetic commentators upon the episode have put forward. He is too poor to pay for his education, and that is why he accepts what the missionary professors offer him, even though it be on conditions which he acknowledges to be degrading, and which make it exceedingly difficult for him to act a sincere part. But upon that aspect of the matter we have already said nearly all that needs saying. The professors who exact, and the students who yield, an external compliance with Christian form and doctrine have alike to reconsider their position from the point of view of sincerity. The incident has a wider significance, however, if looked at in the light of the recent circular of the Government of India. It shows how a maximum of ethical teaching of a certain kind may result in a minimum of influence upon the conduct and discipline of a college. Of that "definite instruction in duty" concerning which the Education Commission of 1882 made such anxious and searching enquiry there has never been any lack. The Professors in the College are men of burning zeal, whose lives are fine object lessons in morality and conduct; they taught daily from a book which, as a "moral text-book," has no rival; and yet when one solitary student yields to their teaching he is deemed guilty of an outrage, there is a solemn but somewhat noisy attempt to vindicate the principles of religious liberty, and the discipline of the College is at an end.

A more striking illustration of the possibility of teaching to no purpose could not well have been furnished. The Education Commission might well leave it on record that the whole question of moral training in colleges is replete with difficulties, and that these are mainly of a practical character. The Government of India seem to look for a partial solution of the problem in the extension of aided schools and colleges in which a prominent place is given to religious instruction. We do not know if they would point to recent incidents at Madras in confirmation of this belief. That incident, it seems to us, serves rather as a warning against expecting that an insincere and compulsory compliance with the forms of a hostile creed can ever yield any moral results worth having. The multiplicity of counsellors on the subject, however, and the confusion of their counsel, make it exceedingly difficult to arrive at a definite conclusion in regard to it, and for the present the advantage is on the side of those who would leave things as they are. Between Mr. Wordsworth and Mr. West, distrusting moral text-books, and looking rather to a wholesome moral exudation from teachers of character and influence, and Mr. Sharrock, in the *Indian Church Quarterly Review*, calling on the Government to close its "so-called neutral, but really agnostic schools," is a great interval, in which there is wide choice of ways and means. The last named suggestion is not wanting in courage, seeing that until twenty-five years ago the giving of grants-in-aid to missionary schools was deemed by Government to be a violation of the principle of religious neutrality. It is not in that direction at all events that a solution of the problem will be sought. Nor has the idea of a moral text-book been received with much favour since Lord Cross revived it and pressed it upon the Government of India. Vice-Chancellor West has little faith in it, seeing that no two persons have been known to agree as to what are the ultimate grounds of moral obligation. In this he shows a scepticism in striking contrast with the courageous faith of Bishop Meurin, who affirmed himself equal to constructing a moral text-book in which Christians and Jews, Mahomedans and Parsees and Hindus, would recognise a natural religion, the basis on which they would all meet in harmony. No specific objection has been taken to the idea of a moral text-book. People have doubted if it would be of any service for the attainment of the end in view, that is all. Those who believe in it have Plato on their side, with his ingenuous faith in a moral preamble to every law. Plato, who thought that even a penal law should include an exhortation to virtue, would have supplied all that Lord Cross wants if only he could have anticipated the necessities of the Government of India in these later times. But the moral text-book, accompanied as the Education Commission would have had it, by weekly lectures by College Professors on the duties of a man and a citizen, would have been of as doubtful value as the lectures. There is no warrant in the history of pedagogy for the belief that human conduct is to be largely influenced by moral primers.

The Government of India, however, have intervened in this matter in response to a claim which, though one eminent educationist has described it as "random rhetoric," it might be unwise to disregard. What the missionaries, unconsciously imitating the Irish Bishops in their denunciation of the Queen's Colleges, call the godless education in Government schools and colleges is in the belief of many honest natives undermining not only the faith but the morals of the Indian people. A reaction, of which it is difficult to say whether it is tending to an increased culture of Hinduism itself or to a simple Theism, has set in, and with it there has come a demand for a more distinctly moral teaching in the Government schools. It is safer to be on the side of the Angels, as Lord Beaconsfield would have said, and the Government have resisted the temptation to leave alone things that they might have found in the counsel of more than one competent adviser. The Government now say that they would be sincerely glad if the number of aided schools and colleges in which religious instruction is prominently recognized were largely increased, since in this direction the best solution of this difficult problem can be found. The opportunity is not, of course, to the missionaries alone, and the reality of the cry which has been raised by the conservative classes at the decay of the old faith and the old morality will be tested by the manner in which they avail themselves of it. We are told that in Madras a conspicuous accompaniment of the recent College *emeute* has been a free distribution of tracts in defence of the Hindu religion and the commencement of an active revival of religious zeal on that side. Will the propagandists, in their anger with the missionaries, copy the educational enterprise of these gentlemen? Grants-in-aid are as available to Hindu colleges as they are to missionary or Mahomedan colleges, and it will be interesting to see if the zeal of the Madras Brahmins for the faith that they deemed to be in danger when one student of the College showed himself to be a little more honest than the rest will lead them to supply themselves with a college of their own. A Hindu religious revival, under cover of an educational enterprise aided by Government grants, would be one of the most curious signs of the times.

THE assumption of a British Protectorate over North Borneo adds to the Empire a territory larger than Ceylon, and nearly as large as Great Britain. The step has for some time past been regarded as inevitable. A precedent for it was set by Prince Bismarck when the German Government in granting a Charter to the East African Association, assumed a protectorate over the country acquired by that Corporation. The North Borneo Company was incorporated in 1881, with the object of acquiring a concession of vast territories originally belonging to the Sultan of Brunei, of administering the country, and developing its trade. Its beginnings have been much of the character of those of the East India Company, except that it has had powers of administration at starting, instead of acquiring them later in its career. It has not yet been a profitable enterprise, its financial history being one of an uninterrupted series of deficits. But the deficits have each year decreased, and Sir Rutherford Alcock, the Chairman of the Board at home, has always spoken most sanguinely of its future. The reasons which have directly led the British Government to assume the Protectorate of the country do not appear. Doubtless they have had something to do with the external relations of the colony. In its early days Spain and the Netherlands set up claims of suzerainty over the country, but these were resisted and ultimately withdrawn. Since then the Company has gone on a career of extensive annexation, mostly by purchase, however, and it is believed to have kept on good terms with the Burnei Sultan. The ruler most jealous of its progress was Rajah Brooke, of Sarawak, and it may be that it has been mainly in order to secure the colony against that potentate that the Protectorate has been assumed. The Protectorate will not necessarily affect the position of the Company, except so far as it brings their administrative work more closely under British control and supervision, and the sense of security which it brings with it should improve its finances, which, in consequence mainly of the special expenditure connected with the starting of the enterprise and the opening up of the country, have not yet attained an equilibrium.

SOME days back we announced the decision passed by the Government of Bombay in a case of some importance and interest to Native States. In that case Kumar Naja Kala, son of Wala Kala Devdan, Chief of Bilkha, a petty state in Kathiawar, charged his own mother with having got up a spurious child, and put him forward as her son, and his father with having abetted her in the commission of that offence. Captain Kennedy, Assistant Political Agent, Sorath Division, took prompt and effective measures to find out the truth, and Kala Wala admitted before him that the boy was false. Shortly afterwards the boy died, but on the reports of local officers Government ordered an inquiry to be made into the matter. The result of this enquiry was that the boy was proved to be spurious, but it was not proved that Kala Wala had any hand in the fraud. There is sufficient ground for believing that the device in question is not uncommon in Kathiawar, and it is to be hoped that the steps taken by the Government will have the effect of checking the practice. In the recent accouchement of two other wives of the same Chief the Agency authorities took precautions against fraud. It is possible that intervention of this kind is not always viewed with favour. But it is sometimes necessary in order to prevent frauds upon right heirs.

THE facts as to the repeopling of Cursetjee Sooklajee Street by its former occupants we understand to be these. On the 24th March the Government issued an order that the police authorities should find out a locality wherein these people, who have been scattered in various parts of the city, may be segregated, and that failing any other suitable place, they be sent back to their old haunts. Upon this the Commissioner of Police intimated that he was not able to find a suitable locality, and asked that they might be allowed to remain where they are. The Government, who had already, in answer to a letter from Sir Frank Souter, enclosing a petition from the Chief Moola of the Borahs, expressed the opinion that the removal of these women from their old haunts had caused a greater nuisance to the public than their presence in the street, replied that they saw no reason to modify the instructions already given, and that as the Commissioner of Police had not been able to find any other suitable location for the evicted women he must reconsider the step he had taken, and permit them to return to Cursetjee Sooklajee Street. Thus the *status quo ante* will be reverted to, and public opinion, which has been unanimous in deprecation of the ill-advised distribution of a nuisance that was formerly kept out of sight, will be satisfied.

WE regret to announce the death of Mr. Nusserwanjee Pestonjee Cama, Barrister-at-Law, a son of Mr. Pestonjee Hormusjee Cama, C.I.E., the founder of the Hospital for Women and Children in Bombay, which took place at the age of thirty-seven years at Oomerawatee on Saturday morning last. The deceased, with his brother, Mr. Nowrojee, was called to the bar in England some years ago; and both of them practised for some time at the Bombay Bar. The deceased afterwards went to Akola, whence he removed to Oomerawatee, where he had good legal practice. He was a well-known professional gentleman in Berar. His remains were consigned to their last resting-place at Budneira. Much sympathy is felt with the generous-hearted Mr. Pestonjee Hormusjee Cama in his bereavement.

DURING the last two days, in Bombay, the weather has been excessively close and sultry, and the sky has been overcast with banks of clouds. About 9 p. m., on Saturday, a smart shower of rain fell for a few minutes, accompanied with flashes of lightning.

IN consequence of Mr. H. E. M. James having reverted to duty in the Bombay Presidency, Mr. P. Sheridan has been confirmed in the post of Deputy Director-General, which he has held temporarily for several years past, and Mr. Hynes has been appointed in place of Mr. Sheridan, but will continue to perform his present duties as Postmaster-General of Burma. Mr. W. [illegible] and Mr. E. C. C. O'Brien have been confirmed in their grades of Assistant Directors-General, and Mr. L. A. Massa has been appointed Secretary to the Director-General.

IT is said that Sir Steuart Bayley will leave Calcutta on Friday for Silliguri, whence he will make his way up the Teesta valley to Kalimpong, and so on through Pedong to Colonel Graham's camp beyond Lingtu. From Gnatong he will return to Darjeeling. Captain Rawlinson, A.-D.-C., accompanies him on the tour.

THE whole of the Sikkim Feld Force is to be rationed to the end of June, and the 32nd Pioneers to the end of the rains.

THE insignia of K. C. S. I. has arrived for the decoration of his Highness the Ellia Rajah of Cochin. The British Resident at Trevandrum, it is expected, will proceed to Cochin to decorate his Highness.

CHOLERA is increasing at Srinagar, the attacks daily having risen from 87 to 140, and deaths from 25 to 71.

A PLAINTIFF, who came from the Deccan, lately electrified a Punjab Court, for he gave his depositions in a theft case in pure Sanskrit. The Judge including the members of the bar were in a fix, and had to seek the assistance of a pundit before they could follow him. This almost proves that Sanskrit is not quite a dead language yet.

A BABU named Hurry, attached to the Artillery Office, Simla, while in a state of intoxication, was killed by falling down the khud, a depth of over eighty feet. The Babu had been for a long time in Government employ.

A CALCUTTA paper learns from a reliable source that Major Hamilton, Aide-de-Camp to Lord Dufferin, has been offered, and has accepted, an appointment on the Staff of Lord Lansdowne. Captain Birdwood, A.-D.-C., has resigned his appointment on the Viceroy's Staff, and leaves Simla next month for Deesa to rejoin his Regiment, the 1st Bombay Lancers, and his office as Extra Aide-de-Camp will be filled by Viscount Clandeboye, the Viceroy's eldest son, who is serving in the 17th Lancers.

COLONEL C. J. SMITH, R.E., the Consulting Engineer for Railways, Madras, proceeds on furlough in June for eighteen or twenty-four months, and Major Coaker will act as Consulting Engineer for Railways and Joint Secretary to Government, P. W. D., Railway Branch.

THE Commander-in-Chief, Madras Army, has circulated among those officers under his command who have subscribed towards the funds of the Imperial Institute, the following extract of a letter from General Sir D. M. Probyn, K.C.B., K.C.S.I., V.C., Private Secretary to his Royal Highness the Prince of Wales, to the Military Secretary to the Commander-in-Chief in India, dated Sandringham, 17th February, 1888:—"The Prince of Wales was much gratified by the Army in India responding so cheerfully to his Royal Highness's appeal in behalf of the Imperial Institute. The Funds are commencing to look up

TELEGRAMS.

[REUTER'S TELEGRAMS.]

NORTH BORNEO.

LONDON, MAY 11.

The British Government will sign an agreement to-morrow assuming the Protectorate over North Borneo.

THE IRISH BISHOPS AND THE PAPAL BRIEF.

At a meeting of the Irish Bishops held to-day they declared they would treat the Papal rescript respectfully, but that they must communicate with the Vatican thereon.

A letter from Archbishop Walsh says that the Papal rescript will not affect the National movement or the National League.

LORD SALISBURY ON THE DEFENCES OF THE EMPIRE.

MAY 12.

In the House of Lords last night, the Marquis of Salisbury made a speech, in which he protested against the panic which at present prevails respecting the alleged unpreparedness of our Army and Navy.

His Lordship said it was untrue that the Government was neglecting the defences of the Empire. The preparations in connection therewith had been continuous during recent years, but it would be insane and treacherous to publish their details to the whole world.

His Lordship took the opportunity of rebuking Lord Wolseley for the speech he made on the 23rd April, reflecting on the conduct of Mr. Stanhope in regard to the defences of the country.

MR. DILLON'S SENTENCE.

Mr. Dillon has been sentenced to six months' imprisonment for his speech on the 8th ultimo.

DERBY SCRATCHINGS.

...riar's Balsam has been scratched for the Derby ...rand Prix of Paris.

KEMPTON PARK RACES.

MAY 13.

...owing is the result of the race for the ...akes, run at Kempton Park yester-

Mr. Vyner's Minting 1
Mr. Younger's Tyrone 2

THE ITALIAN EXHIBITION.

The Lord Mayor has opened the Italian Exhibition in London.

THE SUGAR CONFERENCE.

The final Protocol has been signed by the Sugar Conference.

THE EMPEROR FREDERICK.

BERLIN, MAY 12.

The condition of the Emperor Frederick has generally improved. The local disease, however, rogresses but gradually.

GENERAL BOULANGER.

PARIS, MAY 12.

General Boulanger is making a tour through the department of Cotes du Nord, and has received a perfect ovation everywhere.

AFFAIRS ON THE FRONTIER.

ENGAGEMENT BETWEEN THE DHEMSHEDIS AND THE AMIR'S TROOPS.

(FROM OUR OWN CORRESPONDENT.)

ALLAHABAD, MAY 13.

The *Pioneer's* London correspondent telegraphs that a St. Petersburg telegram states that the Dhemshedis between Kushk and Herat have expressed a desire to become Russian subjects. It is added that there was an engagement on the 6th of April between the Dhemshedis and the Amir's troops, in which there were many casualties. General Alikanoff is stated to have left Merv on the 15th instant to assist the Dhemshedis.

The *Standard* urges that Parliament should be asked to place the first and second Army Corps on a war footing, and urges the immediate issue of magazine rifles to all the regulars. The same correspondent also telegraphs that the Czar, while reviewing some troops at Zarskoeselo, was fired at with a revolver by a Lieutenant Timovieff. His Majesty was unhurt; the would-be assassin was arrested.

BIRTH OF A SON TO THE GAEKWAR.

(FROM OUR OWN CORRESPONDENT.)

OOTACAMUND, MAY 12.

Her Highness Chimabai Saheb, Ranee of his Highness the Maharaja Gaekwar, gave birth to a son here this morning.

(FROM OUR OWN CORRESPONDENT.)

BARODA, MAY 12.

A son was born to his Highness this morning at the Nilgiris. News of this happy event was received here to-day by telegram. Great rejoicings prevail throughout the camp and city.

CHOLERA IN SRINAGAR.

(FROM OUR OWN CORRESPONDENT.)

SIMLA, MAY 13.

A telegram from Srinagar, dated the 11th inst., states that cholera was slightly less. Out of 127 cases 63 deaths had occurred in Srinagar during the previous twenty-three hours.

AYOUB KHAN'S PARTY.

The ladies, families and the remaining followers of Ayoub's party, numbering 454 persons, left Karachi for Rawalpindi, by special train on Friday morning.

RESIGNATION OF MR. THOROWGOOD.

(FROM OUR OWN CORRESPONDENT.)

MADRAS, MAY 13.

Mr. Thorowgood, Superintending Engineer, Madras Harbour Works, since 1876, has resigned chiefly in consequence of divergence of opinion between himself and the Harbour Trust Board as to his responsibility and freedom of action.

CAPTURE OF AN EMBEZZLER.

(FROM OUR OWN CORRESPONDENT.)

CALCUTTA, MAY 13.

Charles Warner, late manager of the Singer Manufacturing Company, who absconded from Calcutta in October 1886 after embezzling Rs. 3,000, has been arrested in Shanghai.

THE CALCUTTA MUNICIPAL BILL.

The new Municipal Bill passed the Council yesterday. Mr. Kally Nath Mitter, in opposing the Bill, said it would interfere with the religious sentiments of the people. It would be possible to interfere with private rights beyond measure, it would be possible to put parties to endless trouble and annoyance when they sought to build houses in Calcutta, and it would be possible to open a wide door for levying black mail.

[REUTER'S TELEGRAMS.]

THE MAILS.

LONDON, MAY 11.

The Bombay mails of the 27th ulto. arrived at Brindisi to-day.

STEAMER MOVEMENTS.

LIVERPOOL, MAY 11.

The Hall Line steamer Merton Hall left here this morning.

LONDON, MAY 11.

The Clan Line steamer Clan Forbes arrived here this afternoon.

SUEZ, MAY 11.

The Clan Line steamer Clan Buchanan left here for Calcutta, Madras, and Colombo, this afternoon.

ADEN, MAY 12.

The Austro-Hungarian Lloyd's S. N. Co's s.s. Electra left here for Bombay this afternoon.

PENANG, MAY 12.

The Italian steamer Bormida left here for Bombay to-day, at 3 p.m.

INDIGO prospects have greatly improved throughout Bengal, and re-sowings are nearly completed. The only exception is in Bhagulpur, where more rain is still wanted. Good showers have fallen over the greater part of Behar, with the exception of Southern Tirhut, and this has revived the October plant and enabled a large amount of re-sowing to be effected. Sowings in Benares and the North-West are progressing satisfactorily, and the khoonties are said to be looking unusually well.

SOME interesting experiments have lately been made with regard to silos in Assam. The experiment in Shillong was the most interesting because, while the constant rain in the Assam Valley leaves very small necessity for the use of silos, the short grass of the Shillong hills soon withers in the dry season, and proper fodder for animals cannot be obtained except by artificial means of preservation. The experiment there was wholly successful, as, although some error in the construction of the pits had prevented the proper pressure of the weight above, the grass was found to still form a most acceptable fodder. The proportion of fodder obtained to grass put in was in one case one-half and in the other one-third, but it is said that had the construction of the pits been perfect, this difference would not have occurred. Further experiments are being made.

THE Darjeeling correspondent of a Calcutta paper writes that on May Day the girls of one of the local schools (Miss Raby's) went through a May Pole dance, which, he says, "was a sight to freshen the eyes of the Indianised yeoman, and a charming spectacle even to those whose early youth was not spent in the simple delight of an old English village." He then goes on to say:—"After this speciality the girls delighted the visitors with their pretty execution of the singing quadrilles, and as I watched their lightness in the May dance, I devoutly wished that some of the older belles of Darjeeling would take lessons at Miss Raby's before dancing the light fantastic on one's toes at the Town Hall. The effect on the multitudes of assembled Bhuteas was intensely funny. At first they fought one another for places of vantage to peep in at the windows, and ended by insanely twirling themselves round in Circassian circles of a kind that only Bhuteas can perform."

APPOINTMENTS IN THE EDUCATIONAL DEPARTMENT.

TO THE EDITOR OF THE "BOMBAY GAZETTE."

SIR,—The letter of "K. T. T.," in your issue of yesterday, draws attention to one only of a series of changes lately, or in course of being, made in the Educational Department, which seem characterised by an absence of all solicitude for the interests of the public. I purpose giving publicity through your columns to the facts of one of these transfers, which, though not involving such highly paid posts as those in the Rajkumar College, is yet of great interest, as it intimately concerns two Government colleges. Mr. Naegaumvalla, Lecturer in Physics in the Elphinstone College, and Mr. Moos, First Master of the College of Science, are to exchange places in the course of a few months. Mr. Moos will have to lecture on Physics in the Elphinstone College. In stating the facts above I should by no means be construed into reflecting on the abilities of the two gentlemen, who are simply the victims of an absurd and reckless system. Mr. Moos holds very high certificates from the Edinburgh University in Engineering and Agriculture, subjects of prime importance in the College where he is at present posted. Mr. Naegaumvalla has graduated a brilliant M. A. in Physics, and has had considerable experience in manipulating physical apparatus in his college. And precisely because these officers are in the right places has it been resolved upon by authorities, whose actions go generally uncriticized, to put the round man in the square hole, and *vice versa*. If the Educational Department were to choose its officials with half the care only that any ordinary business man would exercise in the choice of his agents, much of the discontent and inefficiency existing at present would be done away with. As it is, the duty of the highest authorities in the department seems to be the promulgation of high-flown resolutions about policy, organization, "and all that," while on the practical points of working the department honestly and efficiently the action of these same authorities is seldom free from high-handedness and narrow-mindedness.

ONE WHO KNOWS.

MEANING OF THE WORD "NIMSAH."

TO THE EDITOR OF THE "BOMBAY GAZETTE."

SIR,—In the particulars of an interview with the ex-Amir Yakub Khan, furnished to an up-country contemporary by a correspondent, the following passage occurs:—"Here he asked me if I knew whom the Persians call 'Nimsah'—whether it was the Russians, or Germans, or Poles, or Italians. I could not answer this question. He seemed to be particularly anxious to know." My explanation is as follows:—In Russian and the other Slavonic languages, a German is called *Nemats*, and in Magyar *Nemet*; accordingly, the Turks who translate from those languages, and after them the Persians, call the Germans *Nimsah*. In translations from the French they are called *Allman* and from the Italian *Jedeski*. An Oriental is more puzzled when he finds in the same newspaper different names used in articles translated from two European languages. Thus, for instance, a friend of mine found in the Arabic paper *Jovayib*, published at Constantinople, the expressions *Nemsavi* and *Allman*; I enlightened him that both mean only one and the same nation here known as *Jarmn*, and the name by which the English call it.—Yours, &c.

May 12. E. REHATSEK.

DROWNED IN THE HARBOUR.

A DISTRESSING casualty occurred in the harbour on Saturday afternoon, when a young Scotchman of the name of Driscoll lost his life. Deceased, who was a Quarter-Master of the MacIverLine steamer Niagara, was engaged in the after part of the vessel as she was steaming from her former position in the harbour to the docks, where she will load. Suddenly he was missed, and a lascar who was amid ships pointed out to Mr. Morgan, one of the officers, that a *sahib* had fallen into the water. Throwing out a life-buoy, Mr. Morgan raised the cry "A man overboard," and the steamer was brought to. In the meantime, a boat was got ready for lowering, and Driscoll was seen at some distance swimming for the life-buoy. By the time the boat was manned, the deceased, unable to seize the life-buoy and, as is believed, seized by something below the surface, was observed to sink. The boat's party continued the search for four hours, but deceased not having once again risen to the surface, the party was unable even to recover the body. Driscoll had only joined the ship at the commencement of the present voyage.

MILITARY NEWS.

VETERINARY SURGEON H. T. PEASE, Army Veterinary Department, succeeds Veterinary Surgeon J. C. Dwyer, on the latter proceeding to England on six months' leave on private affairs, as Assistant Superintendent, Horse Breeding Operations, Punjab.

BRIGADE SURGEON H. POTTER, Indian Medical Service, has relieved Brigade Surgeon A. H. Hilson of the medical administration of the Gwalior and Saugor districts.

THE War Office do not scruple to follow Indian procedure in the keeping and rendering of army accounts. It has been the practice in England for regiments to render half-yearly accounts. This has been abolished from the 1st April, and all paymasters of regiments of cavalry, battalions of infantry, colonial corps, regimental royal artillery districts and divisions of royal engineers, have been ordered to render monthly accounts to the War Office, supported by the monthly pay lists rendered to them by officers commanding troops, batteries, or companies.

COLONEL MORTON acts as first Assistant Adjutant-General in place of Colonel Bushman, on leave, Colonel Cooke, from the Ambala Division, taking Colonel Morton's place at head-quarters.

DEATH OF A CALCUTTA ARTIST.

A LARGE number of mourners met last Saturday evening at the Circular Road Burial Ground to witness the obsequies of Mr. Alfred George Palmer, a gentleman as well known for his artistic ability as his intrinsic worth. Mr. Palmer came from a well-known and talented Exeter family. He arrived in India in March, 1874, and joined almost immediately the Engraving Office of the Survey of India Department, where his talents soon attracted the attention of his superior officers, and he was entrusted by them with much of the artistic work produced by that department both in the engraving and lithographic branches. But it was not in his official capacity that he attracted the attention of the general public: the skillful use of his brush in the production of oil and water pictures of still life, the poetry of his conception, his brilliant colouring, combined with truthful representation and careful execution, placed him in the first rank of Indian painters. His works were from year to year a recognised feature of the Exhibitions of the "Simla Fine Arts Society," and were frequently rewarded with prizes. The Art Exhibitions at Poona and Madras were likewise the scenes of his success. Many in Calcutta must recollect his pictures of Indian fruit in the Calcutta Fine Art Exhibition of 1878 and his still larger and more important works exhibited at the Calcutta International Exhibition of 1883-84. He was but lately in receipt of a diploma of honour and medal from the Executive Committee of the Indian and Colonial Exhibition, the fruits of his contribution to that show. Mr. Palmer latterly turned his attention to photography, and at the late International Photographic Exhibition, his exhibits attracted the attention of all visitors, and gave much promise of success in the future in that branch of art. Mr. Palmer's last public act was in connection with the Kyd Street disaster. He had been early enough to take a photograph of the building immediately after the first fall, and he made the negative plate over to Messrs. Bourne and Shepherd to print for sale, generously devoting the proceeds towards a fund for the help of those who had suffered by the accident. Mr. Palmer's early death, at the age of only 34, was caused by tetanus, the result of an accident to one of his fingers, which at first appeared of little consequence, but was ultimately fatal in its results. The deceased gentleman leaves a young widow and four little children. The large attendance of friends and office mates at his funeral showed how much he was loved and respected by those who knew him.—*Indian Daily News.*

MEETINGS OF PUBLIC COMPANIES.

THE MANOCKJEE PETIT MANUFACTURING COMPANY.

THE half-yearly general meeting of shareholders of the company was held on Saturday at the registered office, Hornby Road, the Hon. Sir Dinshaw Manockjee Petit presiding. The secretary, Mr. Furdoonjee M. Banajee, read the notice convening the meeting and the report of the directors. The audited accounts for the six months ending 31st December 1887 were also submitted. The audited balance sheet and profit and loss account of the company for the six months ending 31st December 1887, and the report of the directors for the same period, were approved and adopted. A dividend for the six months ending 31st December 1887, at the rate of Rs. 60 per share of Rs. 1,000 paid-up, and Rs. 30 per share of Rs. 500 paid-up, was declared payable on and after the 29th inst. The Hon. Sir Dinshaw Manockjee Petit and Mr. Dady Nusserwanjee Dady, who retired by rotation but were eligible for re-election, were elected directors. Messrs. Palonjee Framjee Mehta and Bapujee Pestonjee Wadia were appointed auditors for the current year, the accounts to be audited half-yearly, with a remuneration of Rs. 600 each for the year. The best thanks of the shareholders were accorded to the chairman, and directors and agents for their able management of the affairs of the company. The proceedings terminated with a vote of thanks to the chairman.

THE ORIENTAL SPINNING AND WEAVING COMPANY.

THE fourteenth ordinary general meeting of shareholders was held on Saturday at the registered office, Meadow Street, Mr. Nusserwanjee Manockjee Petit, chairman of the board of directors, presiding. The following report of the directors was read by the secretary, Mr. Jehangir Eduljee Davar:—

The directors regret they could not meet the shareholders earlier, as unavoidable circumstances over which they had no control prevented them from so doing. Printed copies of the statements of accounts have been already distributed amongst the shareholders, from which they must have seen that the result of the working of the company during the year has been satisfactory. During the year under report your company has made a gross profit of Rs. 3,02,839-0-3 as per following abstract:—

Total Income Tardeo mail		23,33,983	8 8
Total Expenditure do.		21,29,759	11 0
Total..		20,72,231	13 8
Total Income Colaba Branch..	11,43,357 11 2		
Total Expenditure branch	10,41,946 5 0	1,01,411	6 2
Total..		3,03,635	3 10
Less—			
Loss in shipments of yarn to foreign markets		5,796	3 7
Total..		3,02,839	0 3

Added to this the sum of Rs. 7,112-11-10 balance of last year's account and Rs. 2,151 being portion of unclaimed wages, &c., there remained a sum of Rs. 3,12,002-12-1. Out of this sum your directors paid an interim dividend of Rs. 25 per share on 5,722 shares, absorbing Rs. 1,43,000 and carried Rs. 35,750 during the year towards the depreciation fund in pursuance of clause 128 (*a*) of the articles of association of the company. They also paid out of the profits of the year a contribution of Rs. 994-3-1 to the Society for the Prevention of Cruelty to Animals and a sum of Rs.3,360-9-7 as additional income-tax on profits of the year 1886, leaving a profit balance of Rs.1,28,997-15-5, out of which your directors recommend a dividend of Rs. 20 per each whole share and Rs. 4 per each new share, leaving Rs. 6,985-8-9 for payment of income-tax on the profits made by your company during the year, and a balance of Rs. 7,612-6-8 to be carried to next year's account. Since their last report the directors have placed new machinery, such as ring frames, roving, slubbing, intermediate frames, and carding engines, &c., at the Tardeo Mill and three new boilers at the Colaba branch. In their report for the year ending 31st December, 1885, your directors informed you of their intention to construct a godown or godowns on the plots of ground at Colaba purchased from the Bombay Port Trust. They have accordingly built a godown on one of the plots at Colaba which is now complete, and the company's cotton stored therein. Your company's property is as follows:—

TARDEO MILL.

	Rs.
Building Machinery and stock in process	6,44,500
Cloth and Yarn	1,80,000
Cotton in the Mill and in Godowns	3,50,000
Cotton in mixing godown	20,000
Total	11,94,500

COLABA BRANCH.

	Rs.
Building Machinery and stock in process	6,22,500
Cotton in mixing room	20,000
New warehouse building	20,000
Cotton in Godowns	3,00,000
Cloth and Yarn	1,35,000
Building of the Indian Press leased to Bombay Cotton Press Company, Limited	48,500
Total	11,46,000

The annual statements of the working of your mills are laid before you for inspection. It is with feelings of deep regret that your directors refer to the sad and melancholy death of Mr. Jamsetjee Nesserwanjee Petit, one of the directors and an agent of the company, which took place on Sunday, the 18th March, 1888. The directors have marked their sense of his intelligent co-operation in the direction of the company's affairs and of the valuable services rendered by him to the company in the following resolution:—That the directors with utmost pain and regret record the untimely and melancholy death of Mr. Jamsetjee Nesserwanjee Petit, which took place on Sunday, the 18th March. In his death the directors have lost able assistance and advice as their colleague in all matters conected with the affairs of the company and the company his valuable services as its agent. The vacancy that occurred in the number of directors by the death of the late Mr. Jamsetjee Nusserwanjee Petit, the director, have been filled up by the nomination of Mr. Jeejeebhoy Muncherjee Merwanjee Jeejeebhoy, in pursuance of clause 87 of the Articles of Association of the Company, which the directors hope will meet with your approval. The audited balance-sheet and profit and loss accounts, and statements connected with the purchases of cotton and coal, sales of yarn and cloth, &c., as also inventories of stock on hand on the 31st December 1887, were placed before the shareholders for inspection. The audited accounts and directors' report were approved and adopted. Messrs. Dhunjeebhoy Merwanjee Jeejeebhoy and Nusserwanjee Manockjee Petit, who retired by rotation, were re-elected directors. A dividend was declared of Rs. 20 per whole share of Rs. 625 and of Rs. 4 per new share of Rs. 125, payable on and after the 21st inst. Messrs. Bapujee Pestonjee Wadia and Nusserwanjee Sorabjee Jamsetjee were appointed auditors with a remuneration of Rs. 350 each. The thanks of the shareholders were accorded to the directors and to the agents, Messrs. J. N. Petit and Company, for the good management of the company's affairs during the year. The following resolution was also passed:—"That the shareholders regret exceedingly the untimely and melancholy death of Mr. J. N. Petit, and resolve to place on record the great loss that the company has sustained in his death."

The meeting then resolved itself into an extraordinary general one with the same chairman, when the following special resolution was passed:—"That Article 128 of the Articles of Association be amended by striking out clause (*a*) of the said Article and by substituting in lieu thereof the following words:—(*a*) Such sum as the directors may think fit as a depreciation fund for repairing, maintaining, and adding to the buildings, machinery and works of the company, and that the remainder of the said article remain as it stands at present." The proceedings terminated with a vote of thanks to the chairman.

DRILL CLASS AT THE BOMBAY GYMNASTIC INSTITUTION.

ON Saturday last, a treat was given to the boys attending the Bombay Gymnastic Institution and the pupils of the drill class recently opened by the Institution, which latter is conducted by Mr. T. A. Allen. In recognition of the zeal and energy displayed by the drill master, it had been arranged to present a small purse to Mr. Allen in the presence of the students. Mr. Allen having made the drill class stand to order, Mr. Jamsetjee Cursetjee Cama addressed him and the gentlemen present as follows:—

On account of the sad bereavement in the Cama family, owing to the death of Mr. Nusserwanjee Pestonjee Cama, son of our generous citizen, Mr. Pestonjee Hormusjee Cama, the donor of the Cama Hospital, our esteemed President, Mr. K. R. Cama, has been prevented from being present here to-day to perform the pleasing duty of handing over to you, Mr. Allen, this small token of the esteem in which you are held by the Bombay Gymnastic Institution, and of the affection which is shown towards you by the students who have the privilege of being under your effective tution. I have much satisfaction in asking Mr. Ardasir Dossabhoy Moonshee to hand over to you this small purse at the request of the members of the managing committee of this Institution, of which committee I have the privilege of being a member. The committee of this Institution have been able to make you this present through the kindness of Mr. Byramjee Nusserwanjee Servai, a well-wisher and an old member of this Institution. I trust that the good feeling which is displayed towards you by this small present will be an incentive to you (if an incentive is needed) to continue to instruct the students with the same zeal and energy as heretofore, and which have won not only the admiration of those connected with this Institution, but also the respect and affection of your pupils. I trust that you will long remain connected with this Institution, and that yearly as its prosperity will increase (as undoubtedly it will through the interest and pains you are taking in your work) your connection with it will be beneficial to you as well as to the students, full of youth life and vigor, who will be yearly trained by you and got ready, if not to fight in actual battles, at all events to bear cheerfully the burden of the battle of life before them. (Cheers.)

After Mr. Allen had expressed his thanks, the students were put through various exercises, which enabled them to do justice to the cakes, fruits, native sweets and ice-creams provided for them in abundance. After the above refreshment, each student marched in order before Mr. Ardaseer Dossabhoy Moonshee, who handed over to each student a packet of English sweets. Lusty cheers were given by the boys to the donors who provided the good things, and to the president, the secretary, and the members of the managing committee.

AN INLAND DOCK FOR MADRAS.

A MOVEMENT is on foot in Madras to provide that port with an inland dock. Mr. Cecil Scott, A.M.I.C.E., Kistna Local Fund District Engineer, has written to his Excellency the Governor of Madras, from Masulipatam, under date the 27th March 1888 as follows:—

"On the 4th March 1885 I sent in to your predecessor a scheme for a Madras dock. With the utmost brevity I gave my reasons for thinking such a scheme feasible. To show that I was well acquainted with the soil and levels of Madras I explained that I had acted as Municipal Engineer and Vice-President in that city. With modest deprecation of my own standing and views I explained that I did not forward the scheme until I had obtained the favorable opinion of one of the greatest Engineers in Westminster (privately) and the favorable opinion (nautical) of a former Lloyd's Agent at Madras. I said that the present so called harbour was pretty generally condemned by Engineers and nautical men, and I asked for a committee of Engineers on the subject. On the 27th of the same month I received prompt thanks for my communication, which was handed to Public Works Department. Hearing nothing more, I wrote to the Chief Engineer, Colonel Shaw-Stewart, who assured me demi-officially on 22nd April 1885 that the matter should have fair consideration when Port Trust should be formed. I heard nothing more until I received the following extract of proceedings of Madras Harbour Trust Board at a meeting held Thursday, 30th September, 1886:—

Read letter, dated 14th March 1885, from Mr. Cecil Scott, A.M.I.C.E., Local Fund Engineer, Salem, addressed to his Excellency the Governor, proposing the construction of an inland dock for Madras. Examined plan attached.

Read also letter from Lieutenant J. H. Taylor, R. N. R. No. 3325, dated 20th April, 1885, to the Chief Secretary to Government, commenting upon the proposal. Read endorsement order transferring the question to the Chairman, Harbour Trust Board, for disposal. Recorded: the present state of the harbour rendering consideration of the subject premature.

This, your Excellency, is all the answer I have received. Not only has no engineering criticism been passed upon a scheme that I sent to Westminster for criticism, but I may say the scheme has hardly been thoughtfully considered in any light. Since writing my few and simple remarks on the present so-called harbour another three years have passed, but I have yet to learn that either Engineers or nautical men are any better pleased with this expensive failure. I can understand that to desert the so called harbour which, after many years hard work and enormous expenditure, is still to be carefully avoided in bad weather, and to commence anew on a dock which would with its entrance be finished in two years (for many portions could be at work simultaneously), may from a money point of view, seem highly unpleasant and the man who recommends it troublesome, but your Excellency, I most humbly and respectfully desire to point out (with every wish not to be troublesome) that if it be even possible that the present so-called harbour will not eventually be a success, or will silt up, and that the dock as proposed with two railways running alongside the shipping would treble the trade of Madras, surely it is worth while to appoint the commitee asked for or to obtain an opinion from Westminster. I am emboldened to write thus to your Excellency because I learn that the site selected by me (the light house esplanade) is now to be given up for "new High Court." I need only say in conclusion that I was the pupil of Sir Charles Fox and Sons, and have had fifteen years' continuous service in railway and other engineering in this Presidency, and that I am known to Colonel C. J. Smith, R.E., Chief Engineer, Public Works Department, Mr. David Logan, Chief Engineer, South Indian Railway, Mr. H. E. Stokes, Chief Secretary to Government.

Government, in its Order of the 17th ultimo, observed that Mr. Cecil Scott's scheme for an inland dock for Madras was transferred to the Harbour Trust Board for disposal in August, 1886, and that the Board, after obtaining the views of the Port Officer, were of opinion that the then state of the harbour rendered consideration of the subject premature. The circumstances have not materially altered since, but his Excellency the Governor in Council desires that the Board will be so good as to state whether they have any further remarks to offer on Mr. Scott's scheme.

THE RURKI COLLEGE EXAMINATION

THE results of the examination of the students at the Thomason College, in March last, are decidedly satisfactory. It may be as well to state that the minimum total of marks qualifying for a higher certificate is 2,333; for a Government appointment, 6,233; and for ordinary certificates, 1,675. There were 12 students of the second year in the Engineering class, who went up for examination, and the following were the results:—(1) H. W. Perry, educated at St. Paul's School, Darjiling, obtained the highest number of marks, 2,749, and also a certificate as Assistant Engineer, the Thomason gold medal for the best enginering design and prizes for Civil Engineering, experimental science, surveying and drawing, and also qualified in photography. (2) J. Eaglesome, from the Musuri School, obtained 2,715 marks, the highest certificate as Assistant Engineer, the Council of India prize of Rs. 1,000, the Cautley gold medal for mathematics, and a prize for photography. W. E. Knight, from La Martiniere, at Lucknow, and B. C. French, from the Bishop Cotton School at Simla, both obtained certificates as Assistant Engineers. Debi Dos, from the Government College, of Lahore, obtained a certificate as Assistant Engineer and also won Raibahadur Kunhya Lal's gold medal, Syamaya Churn Ghose, from the Muir College, at Allahabad; P. St. J. Sharpe, from the La Martiniere, Lucknow; Bissen Sarup, from the Government College, Lahore; H. L. Rivitt, from Bishop Cotton School, Simla; Ganesh Das, from the Government College, Lahore F. M. Purves, from the Martinere, Lucknow, and Makhan Lal from the Government College, Lahore, all obtained certificates as Assistant Engineers. In the Engineer Class of the first year 10 pupils will rejoin this month. Two failed to qualify, and one was withdrawn. In the Upper Subordinate Class there are 25 students, of whom F. C. T. Muller, from La Martiniere, Lucknow, came out well at the head, with 1,474 marks, and also won a higher certificate as Sub-Engineer, the prize for general merit, the Thompson silver medal for Civil Engineering, and prizes for drawing, surveying, and photography and the Keay memorial prize for estimating. The next in this class was Surendra Nath Mittra, from Lahore who obtained the higher certificate as Sub-Engineer, the Cautley silver medal for mathematics, and Rai Kunhya Lal's silver medal. Eight other pupils in this class obtained higher certificates as Sub-Engineers, 14 certificates as Overseers only one failed to qualify. Two students of the first year special class, non-commissioned officers in the army, obtained higher certificates as Sub-Engineers. Of the first year's students in the Upper Subordinate Class 25 rejoined this month, one failed to qualify and two died. In the Lower Subordinate Class in which there are 42 students, Devi Sahai stands first, and obtained a certificate as third grade overseer, the prize for general merit, Rai Bahadur Kanhya Lal's silver medal, and prizes for mathematics, civil engineering, surveying, estimating, and languages. In this class, however, four students were expelled for cheating during the examination. There were 15 students from the Native Army in the Military survey class of 1887, who all obtained a higher certificate, and 18 in the class of 1888, who have not yet completed their studies.

ADVICE TO MOTHERS.—Are you broken in your rest by a sick child, suffering with the pain of cutting teeth, go at once to a chemist and get a bottle of MRS. WINSLOW'S SOOTHING SYRUP. It will relieve the poor sufferer immediately. It is perfectly harmless and pleasant to the taste. It produces natural quiet sleep by relieving the child from pain, and the little cherub awakes "as bright as a button." It soothes the child, it softens the gums, allays all pain, relieves wind, regulates the bowels, and is the best known remedy for dysentery and diarrhœa, whether arising from teething or other causes. Mrs. Winslow's Soothing Syrup is sold by Medicine dealers everywhere at 1s. 1½d. per bottle. Wholesale by the Anglo-American Drug Company, Limited, 38, Farringdon-road, London.

MR. RAGHUNATH ROW ON THE MADRAS COLLEGE DISTURBANCES.

ON Wednesday evening several hundreds of students, belonging to the several colleges and schools in the city, assembled at the Gungadas Muntapum, in Triplicane, to hear Dewan Baha dur Raghunath Row address them on the subject of the recent disturbances in the Christian College. The hour fixed was 6 o'clock, but in consequence of other engagements the Dewan did not arrive until past 7 o'clock, the students in the meanwhile showing the signs of great impatience. On reaching the Muntapum, Mr. Ragunatha Row was received with great enthusiasm, and after he had finished his usual business at the customary Wednesday meetings at the Muntapum, *viz.*, reading and explaining in the vernacular a portion of the Bhagavat, he proceeded to address the assembled students as follows:—

Brethren,—Man is said to be religious by nature. History has not yet disclosed to us a country, however barbarous it may be, the inhabitants of which do not recognise the existence of some Superior Being to whom their allegiance is due. We, Aryans, have always been a religious people. (Hear, hear.) We cannot live without it. It was, therefore, the practice of our forefathers to commence the education of a child with religious instruction. This practice has, of late, fallen into disuse. Many have been the evils we have been, knowingly or not, suffering from this neglect of duty. Add to this neglect the prevalence of many unmeaning and, in some cases, of mischievous practices, which unfortunately are associated with religion. This state of things creates unrest in the mind of an Aryan, particularly in one who is educated in other branches of knowledge, just as you, students of the Christian College, are. (Applause.) The preachers of other religions very properly try to give rest to such a mind by placing before him the better part of their religions by comparing it with the grosser part of what is called the Aryan religion, as practised by the uninstructed masses, and thus inducing him to believe in the superiority of their religion to Aryanism. To effect this, foreigners, with the kindest of intentions, spend millions of mohurs, employ some of the best educated of their countrymen teach their Gospels and sometimes succeed in their object. What happened, the other day, in the case of a student of the Christian College demonstrates what I have been explaining to you. The idea of one of their comrades going over to another religion from theirs was not pleasing to the students of the College. They wanted to prevent it, and in attempting to prevent it, the inexperienced students committed errors which have caused them trouble and loss; which they cannot now avoid, and which they must suffer with equanimity. They should admit their errors and apologise for them. They must also submit to punishments, which they may believe they were not justly liable to. They must conform to the discipline of the College as good boys. Such a course is the best for them to adopt, if they wish to consult their individual interests I would advise such of them as are careful to further their own interests to follow the course I have just mentioned. If, however, there be any among them who would consider it to be wrong in principle to be taught a foreign religion before he knows his own, and who feels therefore strong antipathy to read in a College where, according to its discipline, he is bound to read and receive lessons in a foreign religion, despite the pecuniary losses arising from giving up his study in the College, I need not

suggestions of many leading Hindu gentlemen to establish a National College in the metropolis of Southern India to impart both secular and religious education, the ample scope afforded for the establishment of such a College considering the wild and rapid spread of higher education, and, lastly, the uncharitable demand of heavy fees in Schools and Colleges, all these circumstances and considerations have inspired us to establish soon a Hindu Theological College for teaching the general principles of Hinduism on a non-sectarian basis, and for imparting secular instruction up to the B. A. Standard of the Madras University, and for promoting thus the interests of Hinduism as a whole. To attain such a noble object, the hearty support and co-operation of the Hindu community is highly essential. We have already received such firm assurances of sympathy and support from some patriotic and generous Hindu gentlemen of Madras as to enable us to entertain strong hopes of establishing at first a Hindu Theological High School by the beginning of next year. We, the undersigned, therefore, most earnestly and respectfully request that all Hindu Maharajahs, Rajahs, Zemindars, Jagirdars, landed proprietors, sowcars, merchants, lawyers, and other liberal hearted gentlemen will, with their usual generosity and charitable disposition, contribute liberally towards the attainment of our noble object, and send their donations to the honorary secretaries and treasurers of the Hindu Theological College Fund originated by us.

We have the honor to be, Gentlemen, your most obedient servants,

B. Sivasankra Pandiyar, B. A., F. T. S. Honorary President.

T. Gopinatha Tawker, M. Ramakrishtniah Pantulu, A. Nanaboy Davey. } Honorary Secretaries and Treasurers.

We understand that arrangements are being made to hold a mass meeting early next week at Patcheappah's Hall for the purpose of taking measures to give practical effect to the suggestions made by Mr. Raghunatha Row.—*Madras Mail.*

SHIPPING INTELLIGENCE.

THE P and O Co's Steamer Surat, 1,676 tons, Captain J L Parfit, sailed yesterday for Aden, with about 1,100 pilgrims on board.

THE s s Hindoo, 13 tons, Capt C Edwards, arrived here yesterday from Jannugger, with a general cargo and 198 deck passengers.

A DELICATE AND PURE COMPLEXION, soft and fair hands and arms, are assured to those ladies who use ROWLANDS' KALYDOR, which is a most healing and refreshing preparation for the face and arms. It eradicates freckles, tan, sunburn, redness, roughness, chaps, irritation, cutaneous eruptions, &c. ; renders the skin soft, smooth and white, and is equally valuable during the heat and dust of summer or the old and damp of winter for preserving and beautifying the complexion. ROWLANDS' ODONTO is a pure and non-gritty tooth powder ; it whitens the teeth, prevents decay, and gives a pleasing fragrance to the breath. Ask chemists and stores for ROWLANDS' articles, of 20, Hatton Garden, London.

FOR CALCUTTA.

Bhundara—s, 111 bales cotton, R Luchmandas.

BENGAL.

NATIVE LIBERALITY.—The thanks of the Lieutenant-Governor of Bengal are given in the *Calcutta Gazette* to Babu Gunga Pershad, son of the late Roy Bunowari Lall, of Durbhunga, for his offer to contribute Rs. 9,000 towards the construction of a charitable dispensary at Laheria Serai, of which sum he has already advanced Rs. 4,000. Also to Babu Dowlat Chandra Roy, of Kasipur, for his offer to award annually, in commemoration of her Majesty's Jubilee, a gold medal to the student gaining the highest senior scholarship at the disposal of the Education Department in Bengal to cover the expenses of which he has deposited Government promissory notes of the 4 per cent loan to the value of Rs. 2,000.

BENGAL GOVERNMENT ORDERS.—Mr. C. Brownfield, temporary Assistant Settlement Officer, Julpigoree, is allowed furlough for one year, from such date as he may avail himself of it. Mr. E. M. Showers, temporary Assistant Inspector-General, Government Railway Police, Eastern and Northern Bengal lines, reported his departure from India, on furlough, on the afternoon of the 20th ultimo. Mr. R. H. S. Hutchinson, officiating Assistant Superintendent of Police, Midnapore, is transferred to Mymensingh. Mr. K. B. W. Thomas, officiating Assistant Superintendent of Police, Moorshedabad, is transferred to Midnapore. Mr. W. T. Moore, officiating Assistant Superintendent of Police, Mymensingh, is transferred to Dinagepore. Mr. W. F. S. Allen, officiating Assistant Superintendent of Police, on leave, is posted to Moorshedabad. Mr. J. Mann, Professor, Presidency College, is appointed to act, until further orders, in Class III of the Bengal Educational Service, from the 29th March last, *vice* Mr. J. Van Someren Pope, on furlough. Dr. C. A. Martin, Inspector of Schools, Behar Circle, is appointed to act, until further orders, in Class I of the Bengal Educational Service, from the 4th April, *vice* Mr. C. H. Tawney, on furlough. Mr. J. Willson, Inspector of Schools, Assam, is appointed to act, until further orders, in Class II of the Bengal Educational Service, from the 4th April, *vice* Dr. C. A. Martin. Mr. S. Robson, Professor, Hughli College, is appointed to act, until further orders, in Class III of the Bengal Educational Service, from the 4th April, *vice* Mr. J Willson.

THE RECENT CHINESE RIOTING CASE.—Mr. Woodroffe, on behalf of twenty Chinamen, applied at the Calcutta Criminal Revision Court for a rule calling on the Chief Presidency Magistrate to show cause why the conviction and sentence passed on the petitioners should not be set aside. They had been sentenced to various terms of imprisonment from three weeks to fourteen days for rioting. He contended that this conviction was illegal, the charge drawn was invalid in law, and did not disclose any offence or offences to warrant the finding. There was nothing to show that they were led on by one of their number, Sandy Baker, and there was further no evidence to show that stones were pelted, or that his clients were armed with *lattics* ; whereas it was in evidence that the other side had heavy hammers, sticks, and other weapons. There was no finding, moreover, as regards the common object of the assembly, and there was no evidence of the petitioners doing any act which would constitute an offence. The learned counsel dealt with the facts as adduced by the evidence, and also read the judgment of the Chief Presidency Magistrate. He sumbitted that to make out a case of rioting it was necessary to make out, in the first place, an unlawful assembly, and in the next, a common object. Neither of these elements had been proved to exist, and he was therefore of opinion that the finding and sentence were illegal, and should be set aside.

Their Lordships granted a rule in terms of the application.—*Indian Daily News.*

MADRAS.

FATAL ASSAULT.—A punkah coolie, aged above fifty and employed in the Trimulgherry entrenchment, is reported to have been kicked on Wednesday night last, the 9th, by a soldier of the Hampshire Regiment, "annoyed probably by the excessive heat." The coolie died early on Thursday morning ; the body was examined by Dr. Adams, who attributed the cause of death to external violence over the lower jaw, producing fracture of the bone, rupture of small vessels, and extravacation of blood in the brain.

PRESENTATION OF THE CHALICE TO FATHER BIOLLEY.—An Ootacamund correspondent writes :—"It having been previously decided to present the chalice to Father Biolley on the Feast of the Lady of Lourdes, the event took place last Sunday evening after the service. There was a large gathering of the European and Eurasian congregation at the parochial house. Mr. Curley, in an opening address, expressed the pleasure it gave one and all present to greet the Revd Father, and present him with the chalice as the lasting tribute of gratitude and esteem of his late parishioners. Father Biolley, in accepting the gift, said he was unable to thank them in adequate terms for their good wishes and their love and affection for him.—*Mail.*

A FATAL CARRIAGE ACCIDENT.—A carriage accident, which was unfortunately attended with fatal results, occurred at the Royapuram terminus of the Madras Railway Company. Mr. Hanna's carriage was being taken into the station compound, a syce leading the horse, when the animal suddenly became restive. The syce held on, and tried to quiet it, but in his endeavours to do so, he got his foot severely trampled upon, and was knocked down. The horse then bolted, ran over the syce, one of the wheels of the carriage passing over his head. He was immediately picked up in an unconscious state, attended to by the Railway Surgeon, and removed to the Monegar Choultry Hospital, where he died

Agents

THE INDIAN GUARANTEE AND SURETYSHIP ASSOCIATION, Limited,

IS the FIRST PUBLIC COMPANY established in India to provide Security against Losses arising through dishonesty of persons holding situations of trust and to obviate the inconvenience and defects of Surety ship by Private Bondsmen.

The Security of this Association is now generally adopted for European and Native Officers under Government and Public Companies.

Friends and Relations are relieved of the fear of those pecuniary-losses to which persons are exposed who become responsible for the acts of others.

Moderate rates according to the nature of the Employment on the amount of security required.

Premiums periodically reduced.

For Prospectuses and Proposal Forms, apply to

D. McLAUCHLAN SLATER, F. I. A.,
Albert Building. Secretary.

GRATEFUL—COMFORTING.

EPPS'S COCOA.

BREAKFAST.

"By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected Cocoa, Mr. Epps has provided our breakfast tables with a delicately-flavoured beverage which may save us many heavy doctors' bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maladies are floating around us, ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame."—*Se article of the Civil Service Gazette.*

Made simply with boiling wate or milk.
Sold in ½lb. and pound tins, labels thus:—

JAMES EPPS & CO.,
HOMŒOPATHIC CHEMISTS,
LONDON.

ALSO MAKERS OF EPPS'S CHOCOLATE CENESES.

IN USE 100 YEARS.

SKIN DISEASES.

Are of two kinds: firstly, those which are only skin deep (which are not now to be considered); secondly, those which are caused by a bad state of the blood, and which attack various parts of the body in different ways. Skin diseases shows itself in the HEAD, sometimes in the form of Dandruff which no amount of brushing and combing will get rid of, and sometimes in the form of Scaly Eruptions. In the NECK, by an enlargement of the glands (commonly called Glandular Swellings), which if unchecked become very unsightly wounds. In the ARMPITS, and the inside of the ELBOWS, by an inflamed Roughness of the Skin, which is very painful when washed. In the HANDS, by deep Cracks or Fissures which, if healed for a few days, speedily open again, or by horny-looking patches. In the LEGS, by Hard, Shiny and Inflamed Swellings, or by wounds more or less deep. And on the BODY, in Red Scaly Patches, which as often as rubbed off, form again or in the discharge of a thin, watery fluid of a very disagreeable nature. In all these cases the treatment must be twofold. An Ointment is required to relieve Itching, and Medicine must be taken to change the state of the Blood, and render it pure.

Both these requirements are supplied by

Dr. Roberts' Celebrated Medicines,
The OINTMENT called
"THE POOR MAN'S FRIEND,"
And the
ALTERATIVE PILLS,
Called "PILULÆ ANTISCROFULÆ,"

hese Two Medicines have now stood the test of 100 years rial, having been introduced to the public in the latter part of the last century.

They may be obtained of all Chemists, or of the Proprietors

Superior Works, Guarantee 3 Years.

Over 10 years have elapsed since we introduced our **Celebrated Keyless Campaign Watches**, and the unparallelled success they have obtained in India is shown by their rapidly increasing sale and by the numerous imitations which the popularity of a special and reputed article always brings forth. However, these imitations, in what number they may be found, are still all of them far inferior in every particular to our well-known CAMPAIGN WATCHES, which stand unrivalled in the market, and which we mean to improve still—if it is possible to improve what we might call already **a perfection.**

In Open-face Case, Rs. 16 & 20

All our Watches are made in our **Steam Factory** in Switzerland, carefully examined and tested there, and again in our Establishment at **Bombay** before leaving. Sold either in small or middle size.

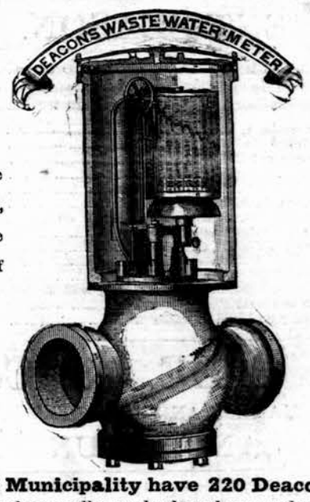
Builders of the Stern Wheel Steamers used by the British Government for the Nile Expedition.

DEACON'S DIFFERENTIATING WASTE WATER METERS.



85 Towns are using these Meters, which thus serve a population of over 4,000,000.

The saving to Corporations and other bodies in England alone is 38,000,000 gallons of Water daily.

Amongst other users we may refer to the Liverpool Corporation saving £60,000 annually by their means, and the Bradford Corporation (A. R. Binnie, Esq., M.I.C.E., Engineer, formerly Engineer of the Nagpore Waterworks).

The Bombay Municipality have 220 Deacon's Meters at present in use

A saving of only one gallon per head per day pays the interest on the outlay for the Establishment of Waste Water Meters, in any town where Water is worth but one penny per thousand Gallons.

For a Report upon the extraordinary efficiency and economy of these Meters we would refer Engineers to the Report of Mr. Binnie, Engineer to the Bradford Waterworks, as conveyed in 'Engineering" of 4th December, 1885.

Full information as to Prices and other particulars can be obtained from the following firms :—

MESSRS. JOHN FLEMING & Co., BOMBAY,
MESSRS. BURN & Co., CALCUTTA,

who will give prompt attention to all enquiries.

NOTICES.

Dr. LAZARUS'S

SPLEEN PILLS

Have cured thousands of cases of enlarged Spleen.

Full directions given in wrapper.

PREPARED (ONLY) BY

E. J. LAZARUS & Co.

MEDICAL HALL, BENARES.

In bottles at Re 1-4 *each. Box and packing* 2 *as.*

From MR. E. KIRBY, Dinapore.—"I have always had in mind your wonderful cure of my daughter's disease of the Spleen.—She was, as is well known by many given up as incurable—her complaint being chronic:—When you took her in hand I really had no hopes that she would ever have recovered:—I write this thanking you for restoring her.—I have great confidence in your Spleen Pills and the Essence of Chiretta which I recommend to all as a specific for the diseases for which they are given. You have my permission to give publicity to the above for the good of the public."

Mr. Apothecary W. J. Montgomery, Madras Medl. Estabt., writes.—"You are at liberty to publish the following few lines which bear Testimony to the efficacy of your Spleen Pills in the "Pioneer" if you think fit. "I have used Dr. Lazarus's Spleen Pills in several cases of enlarged Spleen, &c., in all of them the cure was decidedly rapid, though the dose recommended has been found by me too strong for some. I have used nothing equal to it, and would strongly recommend those suffering from the above complaint never to be without taking a course of these pills, and I am quite certain, that these pills will effect a cure when other remedies have failed." Jalna, Deccan, 24-8-82.

From J. T. Murray, Esquire, Engineer, I. V. S. R. Flotilla, Sukkur, 11-10-83.—The vial of Dr. Lazarus's Spleen pills I purchased of you last month I am happy to say has made a thorough cure of my daughter's (9 years of age) enlarged Spleen. I recommend the Pills to all, young and old, who may be suffering with their Spleen. I have no objection to your making this known to the public."

DR. BRIGHT'S PHOSPHODYNE

Is a marvellous medicine for renovating impaired and broken-down constitutions. It operates on the system without exciting care or thought upon the individual as to the process. It moves the lungs, liver, kidney, stomach, and intestines, with a harmony, vigour, yet mildness unparalleled in medicine.

DR. BRIGHT'S PHOSPHODYNE

Gives back to the human structure, in a suitable form the phosphoric or animating element of life, which has been wasted, and at once imparts new energy and life to the enfeebled constitution.

DR. BRIGHT'S PHOSPHODYNE

Is patronized by Aristocracy and the *Elite*, extensively used in the Army and Navy, and highly recommended by the leading Medical Practitioners.

☞ CAUTION.—DR. BRIGHT'S PHOSPHODYNE.

The ONLY Medicine of that name granted certificates by Her Majesty's Registrar of Trade Marks. Beware of VILE worthless Imitations made up to trade upon the Reputation of Dr. BRIGHT'S PHOSPHODYNE. Therefore ask for Dr. BRIGHT'S, and refuse Useless Substitutes.

DR. BRIGHT'S WORLD-RENOWNED PHOSPHODYNE

Is sold in CASES at 8s. 6d. by all Medicine Vendors throughout the Globe.

Full Directions for use in 16 Languages accompany each case.
